## Policy Statement on Equal Employment Opportunity

### Policy

1. Victoria University of Wellington is firmly committed to the principle of non-discrimination. Consistent with this principle, the University believes in equal employment opportunities for both women and men regardless of race, religious belief, disability, marital status or sexual orientation, thereby drawing upon the overall pool of intellectual talent which exists in New Zealand society.
2. The University is also strongly committed to a policy of appointment to both academic and non-academic positions on the basis of merit. The interpretation of merit is comprehensive, and includes experience and personal qualities as well as formal qualifications. The University believes that it should avail itself of as wide a cross-section of talent as possible in its recruitment and that staff must be selected in as open and non-discriminatory a manner as can be achieved. Efforts will be made to identify and eliminate any practices which inadvertently place any group at a disadvantage in selection and career opportunities.
3. It is considered that a more equal representation of the sexes in University employment, particularly in the more senior ranks of both academic and non-academic staff, is desirable. The positive encouragement of women to take advantage of training and study awards, recruitment policies and planning of career structures should make it possible to achieve a more equal balance over a period of years. Childcare facilities are provided by the University for the children of staff.
4. Consistent with its commitment to the principle of partnership expressed in the Treaty of Waitangi, the University believes that it is desirable to have a higher proportion of Maori staff members than it has at present and that it should facilitate access of Maori students to the University particularly at the post-graduate level. A kohanga reo has been established by the University.
5. The Pacific Island communities have links with the University and the equal employment opportunity programme will seek to ensure that the access of these communities to the University is increased.
6. It is recognised that a policy of equal employment opportunity within a university is predicated on a policy of equal educational opportunity. Unless diverse groups of students have access to various levels of university study, the University will not have an equitable range of applicants for employment. The University is aware that socio-economic origins significantly affect access to university study in New Zealand. While women's overall access to university

study has been increasing steadily, the University also notes that women are under-represented in certain fields and at graduate level. In addition, the statistical evidence is clear that ethnic origins affect access to all levels of university study. A widening of groups from which students are recruited, and a high retention rate in all groups, particularly in those where attrition appears more serious, is most desirable. To this end the University has instituted and will maintain a wide range of student support services, including childcare.

7. When making appointments to committees, the University is committed to achieving as broad a representation as possible. A more specific targeting of the composition of appointments committees is sometimes necessary and appropriate in order to implement the equal employment opportunities policy.
8. All University communications are to be expressed in non-sexist and non-racist language.
9. The University Council expects all members of the University community to observe the highest ethical standards in the pursuit of the University's policy on equal employment opportunities.

### Implementation

10. An Equal Employment Opportunities Committee, comprised of Council members, the Deputy Vice-Chancellor, the Equal Employment Opportunities Officer, representatives of students, women, Maori and general staff in the University, has been established by the University Council. This committee has the responsibility to consult with and assist the Equal Employment Opportunities Officer to develop a programme to remove any possible discriminatory practices, to set goals, and to develop procedures and opportunities within the University for the encouragement of further participation by women, Maori, Pacific Island and other ethnic minority groups, people with disabilities, and the socio-economically disadvantaged, to the ultimate enrichment of both the University itself and society at large.

- (c) Admission to the University is normally restricted to persons who have attained the age of 16 by the first day of the trimester in which they wish to enrol. Any person who is under 16 must obtain the permission of the relevant Associate Dean, with the right of appeal to the convenor of the Academic Committee.

**2. Admission on the basis of a recognised equivalent overseas school qualification:**

Candidates who have gained an overseas school qualification may apply to have that qualification recognised as being equivalent to a school qualification set out in 1(a)(i) and 1(a)(ii) above. Any person who has not gained the minimum entry qualifications ordinarily required for admission to the University, but who will have reached the age of 20 by the first day of the trimester for which admission is sought, and is a New Zealand citizen or permanent resident, is eligible to be enrolled as a student and will qualify for Special Admission.

*Students under 20 years of age*

In exceptional cases, candidates who do not hold a university entrance qualification and who will not be 20 by the first day of the trimester for which admission is sought, may apply for special admission to a programme of study. In assessing whether to grant special admission in particular cases, the primary focus will be on the ability of the applicant to benefit from admission.

- (a) they are over 16 years of age;

Applicants who do not provide such evidence may be asked to demonstrate proficiency in the English language.

**Closing Dates:** Applications for admission should be made by the priority closing dates for receipt of applications to study. For enrolment in the first trimester of 1997 this is 9 December 1996. There are, however, other courses which require an additional application form with an earlier application date. Details of these are listed in the Enrolment Guide and the Enrolment Statute. Domestic students (ie New Zealand citizens or permanent residents) with qualifications gained overseas seeking admission as first-year students or seeking admission with graduate status should apply to the Student Administration Office, Victoria University of Wellington by 9 December 1996.

**International Students:** In addition to the above, International Students must also follow these procedures:

1. All international students seeking admission as first-year students must apply to the International Students Office, Victoria University of Wellington. The closing date for applications is 1 December. Students already studying in New Zealand at Seventh Form level can be accepted conditional upon a satisfactory result in the Bursaries Examination.
2. All international students with overseas qualifications seeking admission with graduate status (other than towards a degree requiring only the presentation of a thesis), or with credits towards a degree course should apply to the International Students Office, Victoria University of Wellington by 1 December. This also applies to any student seeking admission to a degree by thesis who may apply at any time.
3. International students wishing to enrol at Victoria University of Wellington should note that enrolments for the first semester will not be accepted after the second Friday of the first semester, or after the first Friday of the second semester for those wishing to enrol for the second semester only.
4. **English Language Competence:** International students who have gained their educational qualifications through a medium of instruction other than English must provide evidence of their proficiency in English. For this purpose students normally take either the TOEFL or IELTS tests. The required minimum results are:

**TOEFL:** A score of 550 (plus preferably a score of 4 on the Test of Written English).

**IELTS:** An overall band score of 6.0.

*Note: For students who need to improve their English before undertaking university study, the English Language Institute at Victoria offers an English proficiency programme.*

*Those attending the summer course, from November to February, are assessed by their teachers and by taking the ELI Proficiency Test. If students achieve good results, the University will accept this as evidence that they have met the English Language requirements for admission.*

## Transfer of Students and Completion of Degrees Elsewhere

### Transfer of Students

A student transferring from some other university in New Zealand to the Victoria University of Wellington shall be regarded as having matriculated when a satisfactory academic record has been received by this University.

It is University policy that the Council shall give the candidate such credits as it considers appropriate for any papers or subjects which have already been passed in New Zealand and which have been credited towards a degree or other academic qualification in the former university or shall grant such exemptions as it considers appropriate, so that the student may complete the course of study without suffering undue hardship as a consequence of the transfer.

### Completion of VUW Degrees overseas

A student who has previously been enrolled and has completed the major part of a degree course at the Victoria University of Wellington and has then moved overseas, may in some cases complete the Victoria University degree course by taking approved courses at a university overseas and receiving appropriate credit towards the Victoria University degree for them. Full details may be obtained on application to the Student Administration Office.

*Note: A fee of \$120 is payable for an application to receive appropriate credit for approved courses passed at a recognised university overseas.*

### Completion of VUW Degrees at other NZ Universities

A student who has completed the major part of a degree course at VUW and then moved to another district may in some cases complete the Victoria University degree course by taking the remaining courses at another university in New Zealand.

Prior approval in writing, covering specific courses, must be obtained from the Academic Registrar, VUW and an administration fee is payable. The student must advise the Academic Registrar of the other university of the purpose of the enrolment and the courses concerned must be taken for Certificate of Proficiency towards a VUW degree. The student's academic record remains at Victoria University.

### Completion of Degrees of other NZ Universities at VUW

A student who has completed the major part of a degree course at another New Zealand university may in some cases be permitted by that university to complete the degree by passing specified courses at VUW. The student is responsible for

obtaining prior approval from the 'home' university and the student will take the courses concerned for Certificate of Proficiency for another university's degree at VUW. The student's academic record will not be transferred.

## The Extramural Enrolment Statute

This statute is to be read in conjunction with the Personal Courses of Study Statute.

*Note: Some courses offered by the University are taught at a distance, including the Diploma in Social Work and Master of Library and Information Studies; nothing in this statute refers to such courses.*

### Extramural Enrolment

1 A student may be enrolled as an extramural student in some courses offered at this University (see s3 for those courses in which extramural enrolment is only granted in exceptional circumstances). An applicant for extramural enrolment must satisfy the appropriate Associate Dean that he or she should not be required to attend classes. Subject to the other provisions of this statute, attendance will be exempted so far as exemption is shown to be necessary. Exemption from attendance may be subject to such conditions as the Associate Dean thinks fit. The Associate Dean, in exercising his or her powers under this provision, may require, from the Chairperson of the relevant department, a recommendation that exemption be granted. If the Associate Dean is satisfied that attendance is not required, the applicant will be enrolled as an extramural student in that course.

### Restrictions

2 Except where the Associate Dean otherwise permits, a person who is permitted to enrol extramurally in any course(s) for which extramural tuition is provided at Massey University, shall:

- (a) be required to register or enrol for tuition in each such course at Massey University;

- (c) take the examinations of Massey University, and appropriate credit shall be granted at Victoria University of Wellington for the course(s) passed.

3 Except with the permission of the Associate Dean, granted in such exceptional circumstance as he or she thinks fit and on the recommendation of the relevant Chairperson, no person may be enrolled extramurally in respect of:

- (a) any course numbered 300-399;
- (b) any work for an Honours or Masters Degree;
- (c) any work for a diploma;
- (d) any summer trimester course
- (e) any course requiring practical or laboratory work;
- (f) any course or other work which, in the opinion of the Associate Dean, requires internal tuition at a university.

### Persons beyond New Zealand

4 A candidate who, having previously been enrolled at Victoria University of Wellington, ceases to be in New Zealand, and who needs to obtain not more than 24 credits to complete a degree, diploma or professional qualification may, at the discretion of the appropriate Associate Dean and subject to the provisions of this statute, be granted exemption from attendance at classes in the courses concerned.

### Procedure

5 A student seeking to enrol as an extramural student in a particular course (or courses) at Victoria University of Wellington shall

- (a) make application to the Student Administration Office on the form provided;
- (b) make a declaration stating the grounds on which the application is based and declaring whether he or she is enrolled, or applying to enrol, at any other university as a candidate for any degree, diploma or other qualification;
- (c) supply such evidence as the Associate Dean may require of inability to attend classes in the course at any university;
- (d)
  - (i) provide the applicant's current business and residential address;
  - (ii) declare whether to the best of the applicant's knowledge and belief there will be any change of residence during the year of enrolment; and if so the expected new address and approximate date of change;
- (e) pay the fees prescribed in the Fees Statute and, if appropriate, the fee prescribed in the Library Statute for use of the University Library.

6 A student applying to be registered for extramural study at Massey University in any course shall

- (a) not later than 21 January in the year of examination make application on the prescribed form to the Student Administration Office of Victoria University of Wellington for approval to have this course credited towards their Victoria University of Wellington degree, and
- (b) make application to the Director of Extramural Studies of Massey University at the time and in the manner prescribed by the Statutes of that University.

7 Except with the approval of the Associate Dean, application for enrolment as an extramural student shall be made no later than the last Friday in the week prior to the beginning of the relevant trimester.

8 Except with the approval of the Associate Dean, application for partial exemption (being an application for enrolment as an extramural student by a person currently enrolled as an internal student in another course or courses) shall be made not later than two weeks after the beginning of the relevant trimester.

### Application of Statutes

9 Except as otherwise expressly provided, an extramural student shall be subject to all the statutes of the University.

### Appeal Provision

10 The decisions of the Associate Dean are subject to appeal to the Convenor of the Academic Committee.

*Note: Extramural students are required to submit all assignments which are to be assessed in term for the final grade, but such students are exempt from sitting in-term tests.*

## Restricted Enrolment Statute

1 A person who has been excluded or suspended from this or any other university on academic grounds shall not be enrolled as a student of this University except with the permission of the appropriate Associate Dean and on such conditions as that Associate Dean may determine in regard to the course of study to be undertaken.

2 A student who applies to re-enrol for a third year on restricted enrolment will have their enrolment at this university suspended for a period of one year provided that the appropriate Associate Dean may waive the suspension in exceptional circumstances. The student may be readmitted after one year of suspension if the appropriate Associate Dean is satisfied that there is evidence of change of circumstances that would indicate improved future performance. In the absence of that evidence the suspension may be continued for another year.

*Note: This provision will not come into effect until 1 January 1998.*

- 3 (a) Subject to (b), (c) and (d) below, a student who has failed more than half the total number of credits attempted in their two most recent calendar years of academic study at this or any other university will require the permission of the appropriate Associate Dean of the Faculty to enrol in any trimester in a credit load higher than a minimum full-time trimester load (0.4 EFTS).
- (b) A student's enrolment will not be restricted if they have passed at least half the number of credits taken in their most recent year of university study.
- (c) A student's enrolment will not be restricted if they are returning to university study after an absence of not less than five years.
- (d) A student's enrolment will not be restricted once the qualification to which that restriction applied is completed;

*Note: Where a student is completing a double degree the relevant Associate Dean shall decide if the restriction will continue to apply to the second incomplete degree.*

4 A student who has taken the same course on three occasions shall not be enrolled again for that course except with the permission of the appropriate Associate Dean.

*Note: The Council has ruled in its decisions on the limitation of enrolments, that a student who has failed a course for the BCA or BTSM degree on two occasions shall not be enrolled in that course for a third time without permission from the appropriate Associate Dean.*

5 Every application for permission to enrol under (1) above or to have a restriction lifted under (3) or (4) above shall be made in writing and lodged with the appli-

cation to study together with any prescribed fee. Any application not submitted with the application to study may be considered provided it is submitted before the commencement of the next trimester and any prescribed late fee is paid.

*Note: The application should be made to the Student Administration Office: an application form is provided in the Enrolment Handbook.*

6 For the purpose of this statute:

- (a) 'a year of academic study' means any 12 month period in which the student was enrolled at the university;
- (b) a student shall be regarded as having taken a course if he or she was still enrolled in that course by the specified point of the course and did not subsequently withdraw from the course with the approval of the Dean.

*Note: The specified points are defined in Section 10(c) of the Personal Courses of Study Statute.*

### Appeal Process

The decisions of Faculties may be appealed using the procedures set out in Section 27(b) of the Personal Courses of Study Statute.

Enrolment after 11 July will be considered as late and re-acceptance into courses may be required before being permitted to enrol.

## Fees Statute

All fees referred to in this Statute are shown in the Table of Fees which follows.

*Note: Australian citizens, permanent residents of Australia and students from the Cook Islands, Niue and the Tokelau Islands are eligible to pay fees under the same conditions as New Zealand citizens.*

1. Every person enrolling at the University as an internal student who fails to complete the enrolment procedures on the appointed day shall be liable for a late enrolment fee of \$60.

### Extramural Enrolment Fee

2. Every person enrolling at the University as an extramural student (not being a student enrolling for tuition through Massey University) shall each year on application for enrolment pay the prescribed extramural enrolment fee.

### Students' Association Fee

3. Every person enrolling at the University as an internal student shall each year

at enrolment pay the prescribed Students' Association fee, provided that:

- (a) if at the time of enrolment application is made to the Students' Association, the Association may grant total or partial exemption from payment of the Students' Association fee on the grounds of hardship. A student aggrieved by the decision of the Association may appeal to the Vice-Chancellor who shall finally determine the matter;

*Note: Applications under this clause should be made in writing to The President, Victoria University of Wellington Students' Association, PO Box 600, Wellington.*

- (b) any person with an academic or professional qualification acquired at a university, who is attending lectures other than for the purpose of preparing or qualifying for an academic or professional qualification, shall pay one-half of the full Students' Association fee for a full year's enrolment and one-quarter of the full Students' Association fee for a half-year enrolment;

- (c) a student who is a full-time member of the staff of the University shall be exempt from the Students' Association fee, except those in receipt of a salary not in excess of the maximum payable to an assistant lecturer who choose to pay the fee.

- (b) Unless the Students' Association is advised in writing by the student, upon payment of the Students' Association fee a student becomes a member of the Students' Association and is eligible to join any student organisation affiliated to the Association, subject to compliance with the constitution and rules. Membership of a club or society may, however, be restricted to members of a particular sex or of a particular faculty, and special rules apply to religious societies.

- 5. (a) A student who gives written notice of withdrawal from all internal courses to the Registrar on or before the third Friday of the first semester (in the case of a first half-year course), or on or before the third Friday of the second half year (in the case of second half-year enrolment only), or on or before the fourth Friday of the first semester (in the case of a

full-year course) shall be entitled to a refund of the Students' Association fee paid for that year.

- (b) If a student makes a written application for a change of course which gives rise to an increase in the Students' Association fee, that amount must be paid when invoiced. If a student makes written application to withdraw from a course or courses and the Students' Association fee payable by the student is thereby decreased, the appropriate amount will be refunded only if the withdrawal is made during the period permitted for a refund of tuition fees for the course or courses, as set out in Section 11 (a), (d), (e) and (f) of this statute.

7. A student who gives written notice of withdrawal from all internal courses to the Registrar on or before the third Friday of the first semester (in the case of a first half-year course), or on or before the third Friday of the second half year (in the case of second half-year enrolment only), or on or before the fourth Friday of the first semester (in the case of a full-year course) shall be entitled to a refund of the Student Services Levy paid for that year.

*Note: This is a contribution to the provision of student services.*

### Student Assistance Levy

- (b) A student who gives written notice of withdrawal from all internal courses to the Registrar on or before the third Friday of the first semester (in the case of a first half-year course), or on or before the third Friday of the second half year (in the case of second half-year enrolment only), or on or before the fourth Friday of the first semester (in the case of a full-year course) shall be entitled to a refund of the Student Assistance Levy paid for that year.

Students will remain liable for all instalments as they fall due unless exempted under Section 11 of this statute.

14. A student who transfers from internal to extramural enrolment not later than the third Friday of the first semester in any year and who is entitled to a refund of all tuition fees paid in respect of internal enrolment shall pay the full extramural enrolment fees as prescribed in this statute. A student who transfers after the third Friday of the first semester in any year and who is not entitled to a full refund shall not be charged the extramural enrolment fees.

15. (a) A candidate who has enrolled for a course involving only the presentation of a thesis and who has not submitted the thesis shall become liable for a further year's fee on the anniversary of the original enrolment date, provided that, where a PhD candidate is in the third or subsequent year of the course or a Master's candidate is in the second or subsequent year of the course, that candidate shall be permitted to re-enrol and pay fees for a further period of either three months or six months upon provision of a written statement from the candidate's supervisor that he or she is satisfied that the thesis is likely to be completed within the proposed enrolment period. A candidate who fails to enrol and pay the fees due within one month of the anniversary of the original enrolment date will become liable to pay late fee of \$60.

- (b) Students who are required to revise their PhD thesis shall be liable for a fee equivalent to twelve months, six months or three months enrolment upon provision of a written statement from the student's supervisor that he or she is satisfied that the revision is likely to be completed within the proposed period.

### **2. Admission and Enrolment**

Admission requirements must be met (or an application must have been made), enrolment procedures completed and tuition fees paid in full by the date specified for enrolment in summer trimester courses.

### **3. Fees**

- (a) The tuition fees for summer trimester courses will be calculated in accordance with the scale set out in the Table of Fees. The fees will be calculated on the basis of the fees applying during 1996 and will be calculated separately from, and be in addition to, the fees paid for the first and second trimesters of the academic years 1996 and 1997.

- (b) Payment by instalments will not be permitted for summer trimester courses.

*Note: In addition, a nominal reduced Students' Association Fee, Student Services Levy and Student Assistance Levy is payable.*

### **4. Maximum Course Loads**

Enrolments in summer trimester courses will not be counted in relation to degree statutes which set maximum enrolments for the year.

*Note: Aegrotats and Reconsiderations: summer trimester courses will be fully internally assessed. Accordingly, applications for aegrotat passes and reconsiderations cannot be made.*

# Terms

## General Information

The satisfactory completion by an internal student of any University course involves more than the presentation to the required standard of certain pieces of assessed work and the passing of examinations. Lectures, tutorials, practical and field work are offered as an integral part of the learning experience of all internal students and participation in this programme is regarded as necessary to the satisfactory completion of any course of study. Written or oral work which is not assessed as part of the final mark for a course may be required as an aid in teaching that course or to assist students in understanding a particular aspect of the course. For this reason an internal student is required to keep Terms in all undergraduate courses. Terms are kept by attending classes and performing the other requirements set out in Section 1 below. In some courses, Terms requirements are simply to enrol in the course.

Extramural students in certain cases are required to complete course work in addition to the work required for assessment, and for this reason are also covered by the Terms Statute. At the beginning of every course, a Course Outline must be handed out to students and a reference copy must be available for consultation in the Department. This must give details of all work that is required for the keeping of Terms. This document must be available before the end of the second week of any course.

Terms will be awarded on the day on which lectures cease in each trimester unless a department has been given permission to set a later date. In that event, the date will be notified to students in the Course Outline. The actual dates for the current year are printed at the beginning of this Calendar. Departments which wish to issue Terms earlier than the last day of classes may do so and indicate that the list so released is the same as the list that will be posted officially on the university date, subject to the possibility of changes due to successful appeals.

### Written Instructions and Academic Requirements

The following information for students is drawn either from material printed elsewhere in the Calendar or from procedures and decisions approved by the Academic Board.

1. Within two weeks following the commencement of any course, students will be notified in writing by the course coordinator of the academic requirements for the keeping of Terms and for passing the course. This information will be part of the Course Outline which will also be available for reference in the department.
2. The academic requirement for keeping Terms is the satisfactory performance of the written, oral, practical and other work specified. (Where courses are fully internally assessed, the level of academic performance needed to keep Terms will normally be less than that required to pass the course.)  
*Note: Oral work in this context means that prescribed for courses, eg language courses, Law moots. Formal oral examinations are permitted only for Honours and Masters candidates.*
3. The academic requirements for passing any undergraduate course are:

- (b) A candidate enrolled in any course which includes any oral or practical examination shall appear in person to be examined at a centre appointed for the purpose.

- Notes:
1. *Mid-year examination timetables are prepared in April when the course changes made on or before the approved date have been processed. The timetable will be placed on the noticeboards in the Registry and in the third-level foyer of the Kirk Building towards the end of April. Mid-year codeslips will be mailed in the week after Queen's Birthday weekend. Candidates will not be permitted to enter an examination room without their codeslips, so it is important to inform the Student Administration Office immediately of any change of address. The location of examination rooms will be placed on noticeboards at least ten days before the first examination and will be included on the codeslip. Timetables for end of year courses will be placed on noticeboards in early August. Any additions made to a course of study after the final timetable has been posted must be checked with the timetable to ensure that the addition does not introduce an examination clash. If a clash is unavoidable, an application must be made to the Examinations Coordinator to sit two examinations on the same day. End-of-year codeslips will be mailed in early October. The location of examination rooms will be placed on noticeboards in mid September.*
  2. *Candidates who are enrolled as extramural students and who at the date of examination are not residing in the Wellington area must sit the examination at Victoria University unless arrangements can be made for them to be examined at an examination centre of another university. A fee is payable for such special arrangements.*
  3. *Candidates who have strong objections on religious grounds to being examined on a sabbath or festival day should notify the Examinations Coordinator in writing at the time of enrolment. Any such candidate should be prepared, at a later date, to provide a certificate that he or she is a bona fide member of the congregation concerned.*

## Eligibility for Examination

2. (a) Any candidate enrolled for a course shall on complying with the Terms Statute where applicable be eligible to be examined in that course.
- (b) A candidate who is enrolled as an extramural student for any course for which an examination is to be held at the end of the academic year shall notify the Manager, Course Administration, on the form prescribed of his or her intention to sit that examination, and pay the prescribed fee if that examination is sat away from Wellington.

### Examination Procedure

3. The academic requirements for passing any course shall be:
  - (a) the keeping of terms (where the statutes so require), and
  - (b) the attaining of a pass in such examination(s) or in-term work or such combination of in-term work and examination(s) as may be specified for that course.  
In addition the examiners or Board of Examiners may at their discretion require any candidate for Honours or for a Master's degree to attend for oral examination.
  - (c) Where the academic requirements for passing any course are based on in-term work alone, students who consider they have suffered academic disadvantage may appeal a decision of the Chairperson to the Convener of the Academic Committee.
4. Examinations shall be conducted in accordance with such detailed instructions as may be issued under the authority of the Council.
5. In determining the grade to be awarded to a candidate the examiners may take into consideration, in addition to the work specified in Section 3(b), any other work done by the candidate during the course.
6. No candidate for an examination conducted by the Registry shall communicate with the examiner except through the Manager, Course Administration.
7. Any candidate who feels that the circumstances of an examination have caused them to suffer academic disadvantage may appeal to the Convener of Academic Committee.

*Note: This prohibition ceases to apply when the results have been returned to the Registry and placed on the departmental noticeboard.*

### Reconsideration of Scripts

8. (a) The script of a candidate for any degree, diploma or certificate of proficiency may be reconsidered by the examiners where the candidate makes written application to the Course Administration Office for reconsideration
    - (i) for courses taught in the first trimester – before 10 August following the examinations, and
    - (ii) for courses taught in the second trimester and for full-year courses – before 15 January following the examinations, and pays the prescribed fee.

  - (c) No information from the candidate shall be placed before the examiners.
- Notes:*
1. *Under the terms of this section, results for courses which are fully internally assessed cannot be reconsidered.*
  2. *The results for mid-year examinations and end-of-year examinations are mailed to candidates.*

### Aegrotat Pass

*Note: The following Sections 9 to 13 apply in respect of Registry-conducted examinations only. Students who are prevented from completing components of work in fully internally-assessed courses, or who have been prevented from attending a departmental examination, or who consider that their performance in such an examination has been impaired, should report their circumstances to the staff member in charge of the course without delay. Departments will require students to provide documentation similar to that required in the following sections.*

9. A candidate for a course who has been prevented by illness or injury from attending a Registry-conducted examination or who considers that his or her performance in any such examination has been impaired by illness or injury may, on application and with the approval of the Academic Board, be granted an aegrotat pass if:

- (a) the candidate is
  - (i) an internal student, or
  - (ii) an extramural student who has attempted the examination or has submitted such written, oral, practical or other work as the Chairperson of the Department considers sufficient for an assessment under subsection (d) of this section to be made;

- (b) the illness or injury is reported at the earliest possible opportunity. Medical documentation must be based on a consultation within a 24 hour period either side of the examination provided that this period can be extended on the advice of a medical referee or if it can be shown that this was beyond the student's control.

*Note: If the candidate's regular doctor or dentist is not available the candidate should report at once to the Student Health Service.*

- (c) the candidate furnishes to the Manager, Course Administration, a certificate (on the form provided) from a registered medical or dental practitioner stating –

- (i) that the candidate was examined on a certain date;
- (ii) that in the practitioner's opinion the candidate was unable through illness or injury to attend the examination, or that in the practitioner's opinion the candidate's performance in the examination was likely to have been impaired by illness or injury;
- (iii) the nature of the illness or injury, in sufficient detail to make it clear that the candidate was not responsible for his or her disability, and in a form suitable for submission in cases of doubt to a medical or dental referee;

*Note: The certificate should be furnished promptly. If not lodged before the examination result is known it should then be sent in immediately. If it is unreasonably delayed the application may be declined.*

- (d) the Chairperson of the Department certifies that, taking into account
  - (i) the work of the candidate in the course;
  - (ii) all work completed by the candidate in the examination;
  - (iii) the extent of the candidate's disability at or before the time of

the examination, the candidate is clearly worthy of a pass or, as the case may be, a pass with First Class, Second Class (first division), Second Class (second division), or Third Class Honours. Provided that First or Second Class Honours shall not be awarded to a candidate who is granted a pass in respect of an aegrotat application affecting more than half his or her papers.

*Note:* Candidates who consider that, as a result of medical or other problems or because of physical handicap, they would benefit from special facilities at examination time should get in touch as soon as possible with either the Examinations Coordinator or a member of the Student Health or Counselling Services.

10. A candidate may, on application and with the approval of the Academic Board, be granted an aegrotat pass by reason of:

- (a) personal bereavement near the date of a Registry-conducted examination; or
- (b) some other critical personal circumstance involving the health of a relative; or
- (c) some exceptional circumstances beyond his or her control, which prevent a candidate for a course from attending a Registry-conducted examination or seriously impair the candidate's performance at such an examination.

Provided that:

- (i) the conditions contained in subsections (a) and (d) of Section 9, and its provision regarding the award of First or Second Class Honours, shall, with necessary modifications, be complied with; and
- (ii) the circumstances shall be reported at the earliest possible opportunity with such evidence as may be required to substantiate the claim, including if appropriate a statement from a counsellor approved by the University who must be prepared to discuss the reasons for his or her support with the appropriate University authority or referee.
- (iii) Evidence as to the nature of the exceptional circumstances or as to the bereavement or illness of the relative must be provided. In the case of the death or illness of a person not a relative the evidence must indicate that the relationship led to personal grief or necessary absence.

*Note:* Criteria for accepting documentation of non-medical applications from persons other than members of the Counselling Service can be obtained on request.

11. Applications may be made by students for consideration in respect of impaired preparation time in the three weeks immediately prior to a Registry examination. A candidate who considers that his or her examination preparation has been impaired by an illness or trauma, for which he or she is under continuous and well documented care by a person qualified under Sections 9 or 10 of this Statute, may apply for special consideration. The student must demonstrate in his or her application that effective preparation for the

examination was not possible over the period immediately preceding the examination.

*Note: Applications for consideration of impaired preparation time are made and considered in the same way as aegrotat applications.*

12. Aegrotat applications should be submitted not later than 7 days after the student's (last) examination provided that the period may be extended by the Convener of the Academic Committee.
13. The Academic Board has delegated the power to decide aegrotat applications to the Convener of the Academic Committee. The power to review the Convener's decisions has been delegated to the Chairperson of the Academic Board.

### Compensation Pass

14. (a) Where any candidate has failed in respect of any course to meet the requirements for passing specified in Section 3 of this statute, the Faculty shall have power to award to that candidate a compensation pass or unspecified credits if, in the opinion of the Faculty, the candidate's performance in the course of study justifies such an award.
- (b) Each Faculty shall, from time to time, determine the criteria and procedures which it will employ in considering the award of compensation passes or unspecified credits under this section.
- (c) A compensation pass or unspecified credits awarded under this section shall not satisfy any prerequisite of any course, nor shall such a pass or credits be credited to any course of study other than that for which the candidate was then enrolled.
- (d) A decision taken by a Faculty under this provision may be appealed to the Convener of the Academic Committee.

### Thesis

15. The prescribed number of copies of a thesis shall be submitted to the Graduate Student Office, who shall forward them to the Chairperson of the Department concerned. Each copy submitted to the Graduate Student Office shall be in a format and binding satisfactory to the Librarian (see also the Personal Courses of Study Statute and Section 13 of the Library Statute).

*Notes:*

1. Where a thesis is a part or whole of the course the relevant statute requires that a candidate shall communicate with his or her supervisor before commencing work for the thesis and thereafter fulfil the requirements laid down by the supervisor in respect of that work including any departmental requirements as to the maximum length of the thesis.

2. The prescribed number of copies is specified in the statute for each degree.
3. If a thesis is submitted by the first day of November in any given year, it should normally be possible for the examination to be completed in time for the candidate to apply to graduate at the public ceremony to be held in the following year.
4. The supervisor is responsible for the deposit of the thesis in the Library as set out in Section 13 of the Library Statute and its note.

- (c) Any breach of this statute shall be dealt with under the procedure laid down in the Statute on Conduct.

### Minimum Pass Mark

17. The requirements for a pass in an undergraduate course for a degree or diploma are as follows:
  - (a) The candidate must obtain at least 50 per cent of the marks for the course.
  - (b) In any examination which counts for at least 40 per cent of the marks for the course as a whole (i.e. any Registry-conducted examination) a candidate must obtain at least 40 per cent of the marks for each paper.
  - (c) In modern foreign languages a candidate must obtain at least 40 per cent for the oral examination, which is of the value of half a paper.
  - (d) If the examiners have clearly specified in any paper that the achievement of a defined standard in any question or division of the paper is a condition of a pass in the examination as a whole, then failure to achieve that defined standard entails failure in the examination as a whole.Where a course is being examined by a combination of in-term work and a Registry-conducted examination at the end of the course, a candidate must obtain at least 50 per cent in the in-term work and the examinations counting towards the final grade, and at least 40 per cent of the marks to be awarded for the end-of-course examination.

### Special Pass

18. A candidate who has missed an examination because of mistaking its time, may, with the approval of the Convener of the Academic Committee, be awarded a special pass. A candidate may appeal a decision of the Convener of the Academic Committee to the Chairperson of the Academic Board. Computers and Electronic Calculators

The necessary certificate, obtainable from the Registry, must be taken to the examination and produced on request.
- (f) Candidates may not bring into an examination room any equipment which could be used to communicate with any person or device outside the room.

## Statute on Conduct

### 1 Preamble

Members of the University community are expected to contribute with reason and consideration to the University's role, guiding values and standing and to regulate their own conduct so as not to impede or prejudice the work of other members of the community. They are entitled to work, learn, study and participate in the social

aspects of the University's life in an environment of safety and respect.

It is expected that members of the University community will act with integrity and in a professional manner, and demonstrate respect for others and their confidences when given. Those with seniority or authority have a particular responsibility to ensure that these standards are upheld and that a sensitivity to unequal degrees of power is displayed.

If differences or disputes arise between members of the University community, it is expected that they will attempt to resolve any conflict themselves, co-operatively and in a professional manner. The formal procedures prescribed in this statute should only be used where other methods of resolving conflicts or regulating conduct would be ineffective or inappropriate.

It is the policy of the University that all disciplinary procedures conform to the principles of natural justice. The procedures in this statute have been adopted to safeguard the rights of individuals in this respect.

- (c) Where the behaviour in question arises directly as a result of his or her position or role within the University community.

*Note: Section 2(1)(c) is designed to encompass, for example, harassment of a student by a member of the academic staff outside the University precincts, but it is intended to exclude, for example, behaviour which occurs in the context of social interaction between students outside the University precincts.*

- (2) Subject to subsection (3) of this section, the conduct prohibited by this statute, as defined in section 4, is:

- (a) Discrimination;
- (b) Sexual harassment;

- (h) Examination misconduct;
- (i) Library misconduct;
- (j) Information systems misconduct;
- (k) Misuse of information;
- (l) Student misconduct; or

- (3) This statute does not prohibit any act or omission in good faith for the purpose of assisting or advancing persons or groups of persons who need or may reasonably be supposed to need assistance or advancement

in order to achieve an equal place with other members of the University community.

*cf. Section 73 Human Rights Act 1993.*

  - (f) Any other remedy to relieve the complainant's distress and/or correct the mistake and/or repair the damage.
- (3) If the person complained about accepts that the prohibited conduct occurred and a negotiated remedy is effected under subsection (2) of this section, the Human Resources Directorate shall be notified of the negotiated remedy and shall note it on that person's file. Before a negotiated remedy is agreed to, the person complained about shall be informed that the outcome will be noted on his or her file.
- (4) Where a concern or grievance is the subject of an informal approach under section 5(1)(b) and the person complained about accepts that the prohibited conduct occurred, the appropriate Manager may recommend,

in the case of academic staff to the Vice-Chancellor and in the case of general staff to the Registrar, that an oral or written warning be given. If such warning is given, this shall be noted on the staff member's file in the Human Resources Directorate.

- (5) Where a formal complaint against a student is found to be substantiated, the Disciplinary Committee, in addition to or instead of effecting any negotiated remedy under subsection (2), may impose any of the following penalties:
  - (a) A warning;
  - (b) An order to pay compensation for any loss or damage caused by or arising from the misconduct;
  - (c) Suspension from classes;
  - (d) Suspension of access to all or any part of the University facilities or services;

  - (f) The withdrawal of information technology services;
  - (g) Termination of an enrolment;
  - (h) In the case of examination misconduct, cancellation in full or in part of the mark for the examination in respect of which the misconduct occurred and disqualification from sitting any examination. It may also provide any other available remedy to the complainant to relieve distress and/or repair the damage and/or correct the mistake.
- (6) Where a formal complaint against any member of the University community other than a student is found to be substantiated, the Disciplinary Committee, in addition to or instead of effecting any negotiated remedy under subsection (2), may recommend to the Vice-Chancellor that one or more of the following penalties, where applicable, are imposed:
  - (a) A warning which shall contain a statement of the possible consequences if the behaviour recurs, and which in the case of a staff member shall be noted on the staff member's file in the Human Resources Directorate;
  - (b) A warning of termination of employment, which shall be noted on the staff member's file in the Human Resources Directorate;
  - (c) An order to pay compensation for any loss or damage caused by or arising from the misconduct;
  - (d) The withdrawal of access to all or any part of University facilities or services;
  - (e) The withdrawal of library services;

complainant to relieve distress and/or repair the damage and/or correct the mistake.

## **12 Disciplinary Powers of the Registrar**

- (1) If the Registrar believes on reasonable grounds that a student has committed or is committing a breach of this statute and that immediate action is required to ensure that either the work of other members of the University community is not impeded or prejudiced, or that the peace and good order of the University is maintained, the Registrar may instruct the student to cease the misconduct and/or vacate the area where the misconduct has occurred. The Registrar may in addition, or instead, at that time or later -
  - (a) Suspend the student from attendance at the University for a period not exceeding two weeks; or

(Note: under the Trespass Act 1980 any person banned needs to be notified of that ban either orally or by way of registered letter.)

## 17 Appeals

- (1) The complainant or the respondent may appeal to Council from any decision or recommendation made under this statute, by giving notice in writing to the Registrar within four weeks of being notified of the decision.
- (2) The appeal shall be heard by a Committee of Council appointed to hear disciplinary appeals. That Committee shall consist of three members, a Convener and one other member being appointed by Council on an annual basis and the third being an ad hoc appointment for each appeal.

- (4) The Appeals Committee may in its discretion rehear the whole or any part of the evidence and receive further evidence orally or in writing. It may dismiss or allow the appeal, or vary the penalty or recommendation, but it may not impose a penalty or make a recommendation to the Vice-Chancellor which could not have been imposed or made under this statute.
- (5) The Convener of the Appeals Committee may suspend the operation of any penalty or other remedy imposed under this statute pending the hearing and determination of the appeal.

## 18 Records

- (2) Where any negotiated remedy or warning or other penalty imposed under section 11 is noted on a staff member's file in the Human Resources Directorate and no further prohibited conduct has occurred within a period of five years, it shall be deleted from the file.

# Smoke-Free Environment Policy

31 July 1996

The following statement is a summary of the University's smoke-free environment policy. A full statement can be obtained on application to the Works Registrar.

- 1 The University's smoke-free environment policy is to protect the rights of non-smoking staff members, students and visitors while on the University campus sites from being forced to be exposed to passive smoking.

- 2 The University campus sites are defined as sites containing properties owned or leased and managed by the University for its operations. The University campus sites include spaces within 154 Featherston Street building, the Government Building, Student Union Complex, Tennis Pavilion, Island Bay Marine Laboratory, Student and Staff Creches at 67, 69 and 71 Fairlie Tce, 2 Clermont Terrace and 33 Salamanca Road, and Kohanga Reo at 48a Devon Street, Student Accommodation at Te Aro Hall and Weir House.
- 3 All University managed halls of residence have their own smoke-free environment policies which are consistent with the University's smoke-free environment policy. No hall will decline any application for place in their hall purely on the basis that the person is a smoker.
- 4 All enclosed areas in campus sites are smoke-free areas except for special allocated smoking areas and fully enclosed individual staff or student offices within houses and buildings which have not been declared as a completely smoke-free house or building.
- 5 Enclosed areas defined in this policy include all lecture, seminar and other teaching rooms, foyers and corridors, lifts and staircases laboratories, toilets, staff rooms including the Staff Club, cafes and restaurants, recreation centre space including changing rooms, library space, meeting rooms, University-owned or hired vehicles, service areas and open plan office areas. The Rankine Brown quadrangle is not defined as an enclosed area and smoking is permitted in this area. Additional smoking areas may be defined and will be so marked. Shared offices are considered smoke-free areas unless written consent is obtained from all occupants of the enclosed space to make it a smoking area.
- 6 The following houses and buildings have been declared to be completely smoke-free:
  - Government Building
  - Murphy Building
  - 42-44 Kelburn Parade
  - Hunter Building
  - Robert Stout Building
- 7 Though fully enclosed individual student or staff offices can be smoking areas, the individual student or staff member will be permitted to smoke in their rooms only when the doors are closed and windows opened for ventilation. The staff members or students who normally smoke in such offices are not permitted to smoke while they are holding meetings in their offices.
- 8 Any breach of this smoke-free environment policy shall constitute "other misconduct" as defined in the Statute on Conduct. All University contractors, consultants and visitors are required to comply with this policy.

*Note: Reference is made to the policy on smoking in Section 10(d) of the Library Statute.*

## Information Systems Statute

1. In this statute 'electronic network' means any system intended for the transfer of information in digital form to which users of any computer system controlled and operated by the University whether in the University or elsewhere have access;  

'Digital information system' means any computer system together with its associated electronic or optical data storage systems, including but not limited to magnetic memory, disk, tape and CD-ROM and the electronic network;

'Director' in relation to any digital information system means the person authorised by the University to control it or in the case of systems which are not controlled and operated by this University but may be accessed from campus electronic networks, the Director of Information Technology Services.
2. No person shall:
  - (a) gain access or attempt to gain access to a digital information system without authorisation as a user by the Director;
  - (b)
    - (i) obtain or remove from the system any information to which they are not entitled; or
    - (ii) modify information on or erase information from the system, unless entitled to do so; or
    - (iii) attempt either (i) or (ii) above;
  - (c) use or attempt to use a digital information system so as to cause costs to be incurred -
    - (i) by the University without the consent of the Chairperson of Department or other person with appropriate administrative responsibility; or
    - (ii) by any person or organisation without the consent of that person or organisation;
  - (d) use a digital information system in such a way as to contravene any requirements for its use laid down by the Director and notified to users.
3. If the Director believes on reasonable grounds that a person has committed a breach of section 2 of this statute and that immediate action is required to ensure that the work of other users of a digital information system is not impeded or prejudiced, he or she may exclude the person from the use of the system for such period not exceeding two weeks as he or she thinks fit. Exclusion of a student for more than one day when the student is using the system for course work shall be reported to the Chairperson of the Department involved.
4. The Director must within two working days of making a decision under subsection (3) advise the Convener of the Disciplinary Committee of the decision and provide both the Convener and the excluded person with a written statement of the reasons for it. The Convener of the Disciplinary Committee shall review the decision and shall confirm it or modify, suspend or terminate it as he or she thinks fit.

5. A person excluded under subsection (3) from any decision may, after confirmation of that exclusion by the Convener of the Disciplinary Committee under subsection (5), appeal against that exclusion. The appeal shall proceed as if it were an appeal under section 17 of the Statute on Conduct.

## Honorary Degrees and Awards Statute

1. The Council may confer the following honorary degrees and awards: Doctor of Laws, Doctor of Science, Doctor of Literature, Doctor of Music; and honorary awards for distinguished service and for long service to the University.
2. An honorary degree may be conferred on any person whom the Council deems worthy of the honour, provided that the Academic Board has endorsed the Committee's recommendation.
3. Nominations for honorary degrees shall be made to the Vice-Chancellor confidentially by any member of: (a) the Council, (b) the Academic Board, (c) the Committee on Honorary Degrees and Awards, or (d) the academic staff (as defined in the VUW Council Elections Statute 1990). Each nomination shall be accompanied by a statement of the nominee's career and the grounds for the award of the degree. The Vice-Chancellor shall bring each nomination and the accompanying statement before the Committee appointed pursuant to this statute.
4. If the Committee recommends the award of an honorary degree the Vice-Chancellor shall bring the recommendation before the Academic Board of the University. If the Academic Board endorses the recommendation the Vice-Chancellor shall bring it before the Council of the University, which shall determine whether the honorary degree proposed in the recommendation shall be conferred.
5. An honorary award for distinguished service to the University may be conferred, on the recommendation of the Committee on Honorary Degrees and Awards, on any person whom the Council deems worthy of the honour.
6. Nominations for honorary awards may be made to the Vice-Chancellor confidentially by any member of the University Council, staff or student body. Each nomination shall be accompanied by a statement of the nominee's career and the grounds for the award. The Vice-Chancellor shall bring each nomination and the accompanying statement before the Committee appointed pursuant to the statute.
7. If the Committee recommends the honorary award, the Vice-Chancellor shall bring the recommendation before the Council of the University which shall determine whether the award proposed in the recommendation shall be conferred.
8. An honorary award for long service will be conferred by Council on a member of the University Staff to recognise long service to the University.
9. All proceedings under this statute shall be confidential and taken in committee. A resolution of Council conferring an honorary degree or an honorary award

shall also be taken in committee and shall remain confidential until the award is accepted.

10. The Committee on Honorary Degrees and Awards shall be appointed by the Council of the University and shall consist of the Vice-Chancellor, four members of Council who are not members of the Academic Board of the University, the Chairperson of the Academic Board, three members of the academic staff of the University appointed on the nomination of the Academic Board and a graduate nominated by the VUWSA.

With the exception of the VUWSA nominee, the appointed members of the Committee shall hold office for such period as the Council may determine, but an appointed member shall cease to hold office on ceasing to be a member of the Council or the Academic Board, as the case may be. Any casual vacancy shall be filled by appointment of a person having the same qualification as that of the vacating member.

## English Language Competency

- 1 Tuition at VUW is normally in the English language, though students will be required to write and speak Maori or foreign languages in certain courses.
- 2 During their courses at VUW, students will be expected to:
  - (a) write grammatically correct English. They are expected to develop ideas and express themselves in well-structured, accurate and extended written English. Typically, essays or reports of about 1000 words are expected of first-year students. Even in courses where diagrams, drawings, and mathematical and scientific symbols are the main means of expression, the ability to write clear, accurate English is still needed. Essays and reports are the main type of written work set for in-term work and essays are the most common form of examination question.
  - (b) read actively and with understanding. Students need to find relevant information without special guidance, to follow the structure of a narrative, to comprehend and analyse a line of argument.
  - (c) listen to and discern key points. Students will have to follow complex and technical discussion in both formal lectures and informal groups.
  - (d) speak freely and clearly. Students are expected to contribute actively to discussion and to present ideas in classes.
- 3 The VUW Counselling Service runs a Student Learning Support Programme to provide learning assistance and study skills to those who wish to improve their academic performance. Workshops and individual tuition are available in February and throughout the year.
- 4 The English Language Institute (ELI) offers the following language courses.
  - (a) Intensive English for Academic Purposes courses:  
For students from a non-English speaking background who have not yet reached a level where they can cope with the demands of academic study through the medium of English, the ELI offers three 12-week

courses each year (ELIN 931, ELIN 932, ELIN 933).

In addition there is a shorter course (ELIN 935) taught in January which caters for students who have recently completed their seventh form year at a New Zealand school and who wish to prepare for study at a tertiary institution.

(b) Academic writing courses:

These courses are offered to students who have sufficient ability to use English for university study but wish to develop that ability to a higher level. There is a 6-credit course (WRIT 151) which aims at developing the academic writing, reading and study skills of non-native speakers of English. Another 6 credit course (WRIT 101) aims to improve the academic writing and general communication skills of both native and non-native speakers of English.

- 5 Students should not hesitate to approach University departments for help or clarification. Some departments offer additional or streamed tutorials for students from a non-English speaking background.

## Policy on the Use of Te Reo Maori for Assessment

- 1 Both English and Maori are recognised as official languages in New Zealand. Tuition at Victoria University of Wellington is normally in the English language, though students will be required to write and speak Maori or foreign languages in certain courses.
- 2 The University has adopted a policy which provides for students to use te reo Maori in assessment except where (a) a course is taught fully or partly in a language other than English or Maori and the assessment requires students to demonstrate their facility in that language or (b) where facility in the English language is central to the objectives of all or part of the course.
- 3 Wherever possible any student wishing to use te reo Maori in a Registry examination should advise the Examinations Officer at least one month before the examination is to be sat. The examiner will be advised and if he/she indicates that they are not competent to mark the paper in te reo Maori the Examinations Officer will arrange for it to be translated into English as soon as the examination is complete, and returned to the examiner.
- 4 The translator will translate exactly what appears in the examination answer book and the examiner will mark the translation as they would mark any other examination paper though, where necessary, the examiner may seek clarification of the translation of the paper from the translator.
- 5 The university realises that some native speakers of te reo Maori might use Maori/English interchangeably in answering some examination papers. Any student who does so is encouraged to inform the Examinations Officer immediately after the examination. Where an examiner discovers a script

written in te reo Maori of which the Examinations Officer was not notified in advance they will return it immediately to the Examinations Officer who will arrange for its translation.

- 6 Students applying to have their Registry examination script returned will also receive a copy of the translation.

- 7 The policy provides for those students who wish to submit written work in Maori to discuss with the department concerned how they will mark internally assessed work submitted in te reo Maori. University departments are expected to make their own arrangements including deciding whether or not to have the work translated. However, it is expected that students would give advance notice of their intention to complete a piece of work in te reo Maori and the department would then negotiate with them as to how it would be marked. Where an internally assessed piece of work has been translated the student will receive back both the original and the translation.

- 8 There is a procedure for students who consider they have a grievance with regard to either the translation itself or the process for translation and/or marking their paper.

Full details of the policy on the use of te reo Maori in assessment are available on request from the Examinations Office in the Hunter Building.

## Personal Courses of Study Statute

### PART 1: GENERAL

This statute is to be read in conjunction with the statutes for all degrees and diplomas listed in the Degrees Statute and for all other academic qualifications of this University.

1. In this statute:
  - (a) The single word "qualification(s)" is used for degree(s) and, where appropriate, for other academic qualification(s).
  - (b) A "personal course of study" means the subjects which an individual student selects for a degree or other qualification in accordance with the course of study for the time being prescribed for all students for that qualification.
  - (c) The single word "course(s)" is used for those components of a course of study usually known in an undergraduate degree as course(s), and in an Honours degree as paper(s).
  - (d) The word "Chairperson" includes, where appropriate, the Convener or Director of any other body charged with the administration of the statute for a qualification.
2. The personal course of study of every candidate for a qualification shall comply with the statute for that qualification.
3.
  - (a) The personal course of study of every candidate (including the number of credits in which they may enrol) shall require the approval of the Academic Board. The Chairperson of each Department in which the candidate proposes (i) to satisfy the subject requirements at advanced level for an undergraduate qualification, or (ii) to study for a postgraduate qualification (other than PhD), shall act on behalf of the Board in giving that approval.
  - (b) The combined personal courses of study of any candidate for two qualifications shall require the approval of the Chairpersons of both of the Departments concerned.
  - (c) Chairpersons may nominate other members of their Departments to approve personal courses of study and additions to personal courses of study on their behalf.
4. Subject to Section 3, a candidate for an undergraduate qualification (other than LLB and LLB(Hons)) shall neither
  - (a) in any year enrol for more than 48 credits, nor
  - (b) in any half year enrol for courses equivalent in total to more than 27 credits except with the permission of the Academic Board. The Dean of the appropriate Faculty will act on behalf of the Board in giving that permission. For the purpose of subsection (b), half of the credit value of each full-year course shall be attributed to each half year.

*Note: For BSc candidates the total workload in timetabled classes in any week of the academic year shall not normally exceed 30 hours.*

5. Before attending classes a candidate shall have submitted the duly approved personal course of study to the Registrar.
6. The Convener of the Academic Committee may in exceptional circumstances approve a course of study which does not comply with the statute for a qualification.

#### **Enrolment in more than one course of study**

7. (a) A candidate taking courses of study toward two degrees or diplomas or toward a degree and a diploma shall comply with the statutes governing both courses of study. Except with the permission of the appropriate Associate Dean, a candidate shall not enrol in courses having a total credit value exceeding the maximum number allowed by the statute of either course of study. A candidate who seeks exemption from a statute governing either course of study shall submit an application in writing to the Academic Registrar before enrolling.
- (b) Only in exceptional circumstances and with the approval of the appropriate Associate Dean shall a candidate be permitted to be enrolled for a course of study at the Victoria University of Wellington while concurrently enrolled for a course of study at another New Zealand university, polytechnic, wananga, or college of education other than the Wellington College of Education.

#### **Enrolment for course already passed**

8. Only in special circumstances and with the permission of the appropriate Associate Dean will a candidate be allowed to enrol for any course, other than a Special Topic, which has already been credited to a degree or diploma in that candidate's name.

*Note: In such cases the second enrolment for the course will normally be for "Certificate of Proficiency Only".*

#### **Changes in personal courses of study**

9. *Additions*

Any candidate who wishes to add a course after the commencement of the academic year must apply on the appropriate form and obtain the approval of the lecturer in charge of any course which the candidate wishes to enter and of the Chairperson of the Department which approved the personal course of study. Each such application must be accompanied by the prescribed fee, provided that this fee will not be charged for any application if it is made during the first two weeks of each half year.

*Note: In 1997, these periods are 3-14 March and 14-25 July inclusive.*

Additions may be approved as follows:

- (a) for a full-year course until the fourth Friday of the first semester;
- (b) for a half year course until the second Friday of that half year. In special cases, and on payment of the prescribed late fee, the Dean of the appropriate Faculty may approve the addition of a course at a later time.

*Note: A candidate who has not yet enrolled for the year must enrol by the second Friday of the first semester.*

10. *Withdrawals*

- (a) Any candidate who wishes to withdraw from a course must apply on the appropriate form.
- (b) A candidate who withdraws after the specified point in a course, as set out in clause (c), will be regarded as having failed the course unless the withdrawal has been approved by the Dean.
- (c) The specified points for courses are as follows:
  - (i) for a first half-year course, the first Friday of the second semester;
  - (ii) for a second half-year course, the first Friday of the third semester;
  - (iii) for a full-year course, the second Friday following resumption of lectures after the mid-year break.
- (d) A Dean will not approve a withdrawal unless satisfied that:
  - (i) there is evidence of satisfactory progress in the course up to that point; and
  - (ii) there are medical or personal circumstances which make it in the candidate's best interest not to complete the course, and that normally these circumstances have arisen since the specified cut-off date for withdrawals.

*Notes:* 1. In exceptional circumstances where the criteria in (d)(i) are unable to be met, because of the medical or personal circumstances referred to in (d)(ii), relief may be available under Section 27 of this statute.

2. Students who are making a complete withdrawal under the terms of Section 10 should refer to Section 13(a) of the Fees Statute concerning the payment of an Administration Fee.

3. For 1997 the relevant dates are as follows:

Period of Tuition	Refund if withdrawal made by	Application to Dean needed after
Full year	28 March	25 July
First trimester	21 March	23 May
Second trimester	1 August	12 September

4. Any additional fees arising from the change of course will be calculated and will become payable when the change of course form is returned to the Student Administration Office. Any refund that becomes due will be posted to the student when the procedures have been completed.

5. The operative date for any change of course is the date when the form is received by the Registrar. If forms are posted, due allowance should be made for postal delays to ensure that the form arrives before the relevant deadline.

**Prerequisites, Corequisites and Restrictions**

- 11. (a) The personal course of study of every candidate shall comply with any prerequisites, corequisites and restrictions specified in the statute for the relevant qualification, so that
  - (i) a pass in a prerequisite for a course is necessary before a candidate may be enrolled for that course;

- (ii) either a pass or concurrent enrolment in any corequisite for a course is necessary before a candidate may be enrolled for that course;
  - (iii) a candidate may not be credited, either for the same qualification or for two different qualifications, with (both of) two courses which are restricted against each other; provided that a candidate who has gained credits from one such course may subsequently elect to replace these with credits from the other course that is restricted against it.
- (b) Notwithstanding subsection (a)(i), if in the opinion of the Chairperson of the Department offering a course a candidate is qualified to enrol for that course the Chairperson may exempt the candidate from any prerequisite or corequisite, except where the statutes for the candidate's qualification stipulate otherwise.
- Note: In any case where more than one prerequisite is stipulated or where optional prerequisites are stipulated, the prerequisite course to which the exemption relates shall be specified.*
- (c) Where a candidate has passed a course from which exemption from any prerequisite has been granted the candidate may enrol in that prerequisite only with the specific approval of the Chairperson of the Department concerned.
- (d) Notwithstanding subsection (a)(ii), if in the opinion of the Chairperson of the Department offering a course a candidate is qualified to enrol for that course the Chairperson may exempt the candidate from any corequisite, except where the statutes for the candidate's qualification stipulate otherwise.
- (e) Any decision taken under this Section may be appealed to the appropriate Associate Dean (Students).

### **Cross-credits from one qualification to another**

12. (a) A pass in a course for one qualification may be credited as a pass for no more than one other qualification if the statute for that latter qualification permits such cross-crediting of the kind and to the extent proposed; provided that a course may not be cross-credited unless it was passed at the standard required in the course of study to which it is to be cross-credited.
- (b) No course or paper for a Bachelor's degree with Honours (other than LLB(Hons)) or a Master's degree shall be credited to more than one course of study.
- (c) A candidate who is unable to cross-credit a course compulsory in the second course of study, or has passed at this or any other institution a course equivalent to a compulsory course, may present another course approved by the appropriate Associate Dean in place of it.

### **Abandonment of previous passes**

13. A candidate who has credits surplus to a qualification or credited to a qualification which has not yet been conferred or awarded, may be permitted

by the appropriate Associate Dean to abandon passes to another qualification. Where abandonment is to a qualification which did not exist at the time the surplus credits were passed, the student must meet criteria laid down by the Convener of the Academic Committee.

*Note: The Academic Committee has identified the following criteria as necessary for a request for abandonment to a new qualification to be granted:*

*The qualification has been introduced since the courses were passed;*

*The student met the prerequisite requirements of the new qualification before first enrolment for the courses they wish to abandon;*

*The course prescriptions are largely unchanged;*

*The student met all the course requirements within the time limit of the new course statute;*

*The Chairperson of the relevant department supports the request.*

### **Substitution of papers**

17. (a) A candidate for any of the degrees listed in Section 14 may, with the approval of the Chairpersons concerned, substitute for optional papers in the prescription of the subject being presented papers from another subject or subjects, as provided in the relevant degree statute, for not more than half the papers required. Such papers may be taken at another degree granting institution, normally in New Zealand.
- (b) In approving a personal course of study containing papers substituted pursuant to this section the Chairperson shall ensure that the substituted papers shall be relevant and complementary to the other papers being presented by the candidate.
- (c) Any degree certificate issued to a candidate in respect of a personal course of study authorised by this section shall show the substitution(s) made.

### **Enrolment in, and assessment of, prescribed papers**

18. (a) The Honours or Masters course shall be one course, entailing for each candidate a coherent programme of study. The assessment to be made is of the candidate's quality of mind and command of the subject displayed over a range of material and tasks appropriate to the limited time specified for the course. The class of Honours to be awarded or the award of Distinction or Merit shall be assessed on the candidate's performance as a whole.
- (b) A personal course of study for the prescribed papers may be for one or more years.   - (b) First or Second Class Honours shall not be awarded in any subject unless all of the requirements for the award are completed by the end of the period approved for the candidate to be examined for the degree in that subject, provided however that a candidate eligible for an aegrotat pass may be permitted by the Convener of the Academic Committee, on an application certified as under the aegrotat provision, to sit a subsequent examination and still be eligible for the award of First or Second Class Honours, subject to the provision of subsection (c).
  - (c) A candidate shall be eligible for the award of First or Second Class Honours in any subject only if all the requirements for the award have been completed within two years of the candidate's first enrolment for the degree in that subject in the case of BBS(Hons), BMus(Hons), BCA(Hons) and BSc(Hons), and within four years in the case of BA(Hons), provided that this period may at any time be extended by the Dean of the appropriate Faculty after consultation with the Chairperson.

### PART 3: MASTERS DEGREES BY THESIS

22. Sections in this part apply only to the following degrees: MA, MArch, MA(Applied), MMus, MMS(Tech), MEd, LLM, MConSc, MEnvStud and Part 2 of MBSc, MCA, MPP and MSc.
23. The following conditions shall apply to the thesis:
- (a) The research for and the preparation of the thesis shall be supervised by a professor or lecturer appointed by the relevant Chairperson. If the supervisor is appointed from outside the University, on the recommendation of the Chairperson, a second suitably qualified person who should be a member of the academic staff of the University, should be appointed. A candidate shall communicate with the supervisor(s) before commencing work for the thesis and thereafter fulfil the requirements laid down by the supervisor, including any departmental requirements as to the maximum length of the thesis. (See Section 14 of the Library Statute regarding the format of the thesis etc.)
  - (b) The thesis shall embody the results obtained by the candidate in an investigation relating to some branch of the subject being presented; or,

in the case of MA, MA(Applied), MMus, MEd and Part 2 of MCA and MSc, may consist of a review of the literature of some special problem which may be combined with the repetition of some standard investigation of an aspect of this problem.

(c) The research for the thesis may, with the approval of the appropriate Associate Dean (Research), be carried out in part at an approved institution outside the University.

(d) The work for the thesis should require normally one year but not less than one semester, of full-time work, or the equivalent in part-time work. Part-time status (and the payment of part-time fees) shall only be granted to candidates whose employment, or personal circumstances make full-time research impractical. Note however the following provisos:

(i) With the approval of the supervisor(s) and the Chairperson of the Department a full-time candidate may engage in other academically relevant work for an average of not more than six hours per week during any calendar year, this time to include preparation, marking and any other ancillary activities necessarily involved in the work; and

(ii) A candidate may take such statutory, recreational and other holidays, and undertake such domestic duties as are normally regarded as consistent with a full-time occupation.

(e) A candidate who has completed the thesis may make application to the Graduate Students' Office to be examined. The application shall be accompanied by

(i) two copies of the thesis in each of which is bound a short abstract of the thesis;

(ii) a statement from the supervisor certifying that the candidate has pursued the research in accordance with the requirements of the relevant statutes and indicating what part the supervisor played in the preparation of the thesis.

(f) A candidate shall present the thesis within the time specified in the relevant statutes, but this period may at any time be extended by the Dean of the appropriate on such conditions as are thought appropriate.

(g) The Associate Dean (Research) of the appropriate Faculty, on application from a candidate who is unable to continue work on the thesis for a specified period of time, may grant a suspension of enrolment for that period.

*Note: The Associate Dean (Research) would not in ordinary circumstances grant a suspension of enrolment for a period of less than six months or more than twelve months.*

(h) The thesis shall be examined by two examiners appointed by the relevant Chairperson, one of whom, as internal examiner, shall be a professor or lecturer of the University or other person appointed by the appropriate Associate Dean on the recommendation of the Chairperson and the other, as external examiner, a person of standing in the field being examined and not in the ordinary case on the staff of the Victoria University of Wellington.

*Note: Provisos exist for MA (Applied) and MPP. See the statutes for MA (Applied), Section 8(b) and MPP, Section 5(b).*

### Result of the examination

24. (a) Having received the reports of the examiners of the thesis (and of any papers prescribed for the candidate under the relevant statutes) the Chairperson shall forward the result of the examination, with the examiners' reports, to the Registrar who shall advise the candidate of the result.
- (b) If the examiners consider that the thesis is not entirely suitable for acceptance for the degree they may recommend that it be returned to the candidate for revision, and resubmission within a specified period.

## PART 4: MISCELLANEOUS

### Transition from earlier regulations and statutes

25. (a) Subject to subsection (c), a candidate enrolled for a qualification prior to a change in regulations and statutes for that qualification is entitled to continue under the regulations and statutes in force at the time immediately prior to the change and in accordance with a determination to be made in each case by the appropriate Associate Dean concerning the way in which the requirements of the earlier regulations and statutes are to be met.
- (b) In making the determination provided for in subsection (a) the Associate Dean shall endeavour to avoid undue hardship and in particular shall, as appropriate,
  - (i) take account of how long the candidate has been enrolled;
  - (ii) decide that, if passes in a course taught before the change of regulations and statutes and a course introduced through the change of regulations and statutes are substantially equivalent, they shall not both be credited.

*Note: The schedules to current statutes for degrees and other academic qualifications generally make against current courses explicit restrictions relating to courses which have been taught within the last 7 years. Information about courses last taught more than 7 years ago which may be restricted against current courses can be obtained on request from the Academic Registrar and Departments.*

- (c) Subsections (a) and (b) do not apply if the current statutes for the qualification exclude the right to continue under the earlier regulations and statutes or if they make specific provision for the transition.
26. This section applies only to the following degrees: BBSc, BArch, BA, BMus, BCA, LLB, BSc.
  - (a) Each BA, BCA and BMus unit passed before 1972, and each BSc unit passed before 1973, shall count as 12 credits, and each half unit or reading knowledge as 6 credits, but no candidate who has passed such unit, half unit or reading knowledge shall enrol in its equivalent as scheduled for any degree.

- (b) The units and their stages of the earlier regulations and statutes shall be deemed to be of equivalent standard to the courses scheduled for current degrees in accordance with the following table:

<i>Courses numbered</i>	<i>Equivalent stage</i>
100-199	Stage 1 or Reading Knowledge
200-299	Stage II
300-399	Stage III

## PART 5: ACADEMIC GRIEVANCE

27. (a) Where a student considers that academic disadvantage has occurred with respect to a statute, and provision for appeal exists in that statute, a student must use that provision.

*Note:* For information on which statutes contain appeal provisions, see the statement on Academic Grievance Procedures which follows this statute.

- (b) Where no other appeal provision exists, the student shall have the right to appeal to the Convener of the Academic Committee, to whom the Academic Board has delegated its powers in this respect.

*Notes:*

1. The student shall have the right to make submissions in writing and to appear in person before the Convener, accompanied by a supporter or supporters if so desired, and/or by counsel;
2. The Dean of the appropriate faculty shall be given an opportunity to make recommendations to the Convener, who shall give due consideration to any such recommendations.

- (c) Where it is shown to the satisfaction of the Convener of the Academic Committee that academic disadvantage has occurred, the Convener of the Academic Committee may give such direction (including if appropriate the reference of the matter back to the original decision-maker) or make such provision as is thought fit. "Academic disadvantage" includes -

- (i) an amendment to regulations and statutes involving a change in a course of study or in examination requirements that has caused a student undue hardship;
- (ii) a situation in which official advice has been given and acted upon, as a result of which a student's personal course of study is not in accordance with the regulations and statutes and undue hardship would be caused if the student were compelled to comply with the full requirements of the regulations and statutes;
- (iii) exceptional circumstances, including circumstances arising from decisions taken under University regulations and statutes, involving academic disadvantage to the student.

*Note:* In this provision the expression "exceptional circumstances" refers to unforeseeable, or atypical events affecting the student.

- (d) A student dissatisfied with the decision of the Convener of the Academic Committee may appeal to the Chairperson of the Academic Board; either the Chairperson or the student may elect that the appeal not be heard

by the Chairperson of the Academic Board but be dealt with by an Academic Board Committee established to hear appeals. That Committee shall comprise the Assistant Vice-Chancellor (Academic) as Convener, another academic staff member of the Board and a student member of the Board. Any application shall be made within 4 weeks of the notification to the student of the decision made under subsection (c) or within such further period as the Committee may allow.

- (e) Any student dissatisfied with any decision of the Board made under subsection (d), or under the appeal provisions contained in other statutes, may, where there are serious deficiencies in the process of lower decision-making bodies, apply to have the decision reviewed by the Council's Academic Grievance Committee. That Committee shall consist of 5 members appointed by the Council, including 2 appointed on the nomination of the Academic Board and 1 appointed on the nomination of the Students' Association. The quorum of the Committee shall be 3. Any application shall be made within 4 weeks of the notification to the student of the decision made under subsection (d) or within such further period as the Committee may allow.

- (f) Any student applying under subsections (d) or (e) shall have the right to make submissions in writing and to appear at any hearing in person, accompanied by a supporter, or supporters, if so desired, and/or by counsel before the Chairperson of the Academic Board, any Academic Board Committee or the Council's Academic Grievance Committee as appropriate. In other respects the Chairperson or the Committee shall follow a procedure which is appropriate to the subject matter of the review, which protects the rights of the student, and which ensures so far as possible that the Chairperson or the Committee is fully informed about the matters subject to the review.

*Note: Council has endorsed a document which sets out procedures to be followed in relation to academic grievances. Copies may be obtained from the Deputy Academic Registrar.*

## ACADEMIC GRIEVANCE PROVISIONS

The university has a well-developed academic grievance procedure to assist students who feel aggrieved on academic grounds. In general students should talk to the tutor or lecturer concerned, or if they are not satisfied with the result of that meeting, see the departmental Chairperson or the Associate Dean of Students for their Faculty.

Students who, for whatever reason, prefer not to talk directly with the lecturer, or feel the problem is not being solved, can contact other people to discuss the problem. These include VUWSA class and faculty representatives, the Students' Association's full-time Education Co-ordinator, and the University's Deputy Academic Registrar, in the capacity of Student Grievance Co-ordinator.

The remedies which exist are as follows:

## **Enrolment**

*Entrance, matriculation and credit transfer* Admission Statute and credit transfer provisions in course of study statutes)

All matters relating to these procedures are decided by the Convener of the Academic Committee and reviewed by the Assistant Vice-Chancellor (Academic).

*Entry to courses with limited enrolments* (Limitation of Entry)

Decisions under Managed Enrolment procedures are made by faculties which must also have an established review procedure to which students have recourse. Appeals against the decisions of the faculty review are made to the Assistant Vice-Chancellor (Academic).

*Restricted Enrolment* (Restricted Enrolment Statute)

Decisions of faculties are reviewed by the Enrolment Review Committee (Restricted Enrolment Statute Appeal Procedure).

*Assessment Award of Terms* (Terms Statute S.1)

Decided by Chairperson and reviewed by the Convener of the Academic Committee.

*Examining* (Examination Statute)

Decisions on matters related to internal assessment (S.3) by a Chairperson are reviewed by the appropriate Associate Dean (Students) and may be appealed to the Convener of the Academic Committee.

*Aggrotat passes* (Examination Statute S.9 to S.13)

*Special Pass* (Examination Statute S.18)

*Complaints regarding examination circumstances*

Decisions by the Convener of the Academic Committee on the above matters are reviewed by the Assistant Vice-Chancellor (Academic). (Students should note that examiners have the right to dispose of scripts after three months and that any examining appeals should be lodged promptly.)

*Compensation pass* (S.10)

Decided by the relevant faculty on the basis of criteria set out in Instructions to Examiners (available in the University Library) and reviewed by the Convener of the Academic Committee.

## **Misconduct** (S.15 and S.16)

Appeals against a finding of the Chairperson of Academic Board or Convener of its Disciplinary Committee – see Statute on Conduct.

## **Waiver of prerequisites** (Personal Courses of Study Statute S.11)

Decided by the Chairperson and reviewed by the appropriate Associate Dean (Students).

## **Extensions of time** (referred to in course of study statutes)

Decided by the appropriate Dean and reviewed by the Convener of the Academic Committee.

## **Withholding of theses from public access** (Library Statute s.16(c))

Decisions on requests are made by the Convener of the Academic Committee and reviewed by the Chairperson of the Academic Board.

**Quality of teaching** is the responsibility of the Chairperson and reviewed by the appropriate Associate Dean.

**Workload of courses** is the responsibility of the Chairperson, monitored by the Faculty Workloads and Assessment Committee, and reviewed by the Associate Dean (Students).

**Harassment by teachers** – see Statute on Conduct

Matters which have not been resolved informally at the departmental or faculty level may be taken up formally with the Convener of the Academic Committee through the Deputy Academic Registrar. The Dean or Chairperson of the relevant faculty or department will be given an opportunity to comment and make recommendations on the complaint and the student may ask to be interviewed.

Any student dissatisfied with the decision of the Convener of the Academic Committee may ask to have the decision reviewed by the Chairperson of the Academic Board.

If at any time in this process new information becomes available, the matter will be referred back to those making the original decision to review for themselves.

If the complaint is not upheld by the Convener of the Academic Committee, or on review by the Chairperson of the Academic Board, or any Board committee established to hear appeals, the complainant may invoke the provisions of Section 5 of the Personal Courses of Study Statute - Academic Grievance, provided it has been agreed that the case meets the test of "exceptional circumstances".

Council has endorsed a document which sets out procedures to be followed in relation to academic grievances. Copies may be obtained from the Deputy Academic Registrar.

### **Cancellation of Courses**

The Courses to be offered by the University in the 1997 year listed in this Calendar are available on the basis of sufficient University resources and student demand and provided it is possible, and economic, for the University to offer those courses. Courses may be cancelled by the University as a result of insufficient resources or student demand, or if other unforeseen circumstances arise which make it impossible or uneconomic for those courses to continue to be made available.

For part-time students the thesis shall be presented within three years and six months of the candidate's first enrolment for Part 1 or within two years and six months of the candidate's first enrolment in Part 2.

10. If the work of a candidate admitted directly to Part 2 or otherwise not eligible to be awarded the MBSc degree with honours is judged by the examiners to be of sufficient merit, the candidate may be awarded the MBSc degree 'with distinction'.

11. For personal courses of study which include both Parts the provisions concerning the classes of Honours to be awarded are contained in the Personal Courses of Study Statute, Part 2. A candidate shall be eligible for the award of Honours in a subject only by completing all the requirements for Honours within two and a half years of first enrolling for the degree in that subject, provided that this period may at any time be extended by the Dean of Architecture.

*Note: Approval of an extension of the eligibility period will usually also require approval under Section 23(f) of the Personal Courses of Study Statute for extension of time for the presentation of a thesis. Extension of the period will be granted if it is clearly necessary because of circumstances beyond the control of the candidate. A candidate refused extension under Section 20(f) may still be granted an extension under Section 23(f) of the Personal Courses of Study Statute and so be able to qualify for the award of the degree without Honours.*

Enquiries regarding eligibility under this section should be addressed to the Manager, Student Administration Office.*

7. Notwithstanding anything contained in this statute a candidate for the BSc degree may be credited with up to 36 credits under the following provisions:
  - (a) A candidate who has passed with merit the written and practical examinations for the New Zealand Certificate of Science or other recognised technical qualification of comparable standard may be credited with such specified courses, or exempted from such unspecified courses, not exceeding in either case 36 credits in total, as the Convener, Academic Committee may determine.
  - (b) A candidate who has completed in or after 1976 a two-year or three-year course of teacher training at the Wellington College of Education and who has qualified for the award of a college of education diploma may be granted such number of credits (not exceeding 18 for a two-year course or 24 for a three-year course) as the Academic Board may determine. Such credits shall be unspecified, and shall be treated as 100-level non-science credits. At the discretion of the Academic Board this provision may be extended to candidates who undertook part of their studies at another New Zealand college of education.

*Note: Any such candidate who is not eligible to enrol under s.1(i) or (ii) of the Admission Statute shall apply for admission under the appropriate section of the Statute. Before any credits under this section may be granted the applicant must have matriculated at this University.*

### **Direct Entry to Courses Numbered 200-299**

8. In Chemistry, Mathematics and Physics, notwithstanding anything contained in this statute, a candidate who has attained a sufficiently high standard before matriculating may, with the permission of the Chairperson, enrol in a course of level 200-299 without having passed the prerequisite at level 100-199 in the same subject. If the course is passed at the higher level, the candidate shall not be credited with the course at the lower level. If the examiner certifies that the candidate, although failing in the higher level course, attained the standard of a pass in the lower level course then such a pass will be credited. In the case of CHEM 190, students who pass the terms test for this course, but then fail the course as a whole, may, with permission of the Chairperson of the Department of Chemistry, be granted credit for CHEM 103.

### **Transition from Earlier Regulations**

9. Notwithstanding Section 25 of the Personal Courses of Study Statute, candidates who began their course of study under the BSc Statute in force before 1995

may complete the degree under that statute provided that they do so before the end of 1999. They may choose however to complete under the new statute.

### Schedule to the BSc Statute

## Intermediate Courses

In certain degree courses there are Intermediate or First Examinations that have to be passed before the later stages of the subject can be taken. The subjects of some Intermediates can be studied at Victoria, but the later professional stages can be taken only at certain other universities. In some cases the number of students applying for entry to second-year courses normally exceeds the number of places available and acceptance depends on the grade of pass obtained in the Intermediate subjects.

Except where equivalent courses are not available, students who complete Intermediates at Victoria are selected for entry to the first professional stage on the same basis as students from any other university.

The medical course at the University of Auckland does not require an Intermediate examination. Application for admission to this course is normally made from Form Seven. Other applications will also be received although it is emphasised that selection, which is mainly based upon bursaries/scholarship examination results, leads to admission to the first year only of the medical course.

Direct entry into first professional or second-year classes in Engineering may be possible on the basis of University Bursaries or Scholarship results. Application should be made to the School concerned as soon as results are known.

Where there is some freedom in the choice of subjects, courses should be planned in such a way that students can proceed to a Bachelor's degree at Victoria University if they change their mind or are unable to gain entry to the school chosen. In some cases a BSc degree allows preferential entry into or cross-credits towards degree courses at other universities.

The following are the normal Intermediate courses at this University. However, some variation is allowed in some of these courses and some changes may have taken place since the Calendar was printed. For this reason all Intermediate students and those intending to complete degrees and then proceed to professional courses at other universities should have their courses checked by the appropriate adviser at the time of enrolment. Students planning to enrol for an Intermediate year leading to a professional course at the University of Otago should consult the Registrar of the University of Otago about their proposed Intermediate course of study prior to enrolment.

**Graduates or near graduates intending to apply for entry to professional schools at other universities should consult the appropriate adviser (see end of this section) as early as possible.**

  - (b) field work may be carried out at such places and for such periods as the relevant Associate Dean may determine;
  - (c) research requiring the use at first hand of documents or books not available within the University may be undertaken in an approved institution outside the University, for such period or periods and on such conditions as may be determined from time to time by the relevant Associate Dean;
  - (d) the relevant Associate Dean on application from a candidate who is unable to fulfil the conditions of registration for a specified period of time may grant a suspension of registration for that period.

A candidate shall communicate with the supervisor(s) before commencing work on the thesis, and must thereafter fulfil the requirements laid down by the supervisor(s) in respect of this work including any departmental rulings approved by the relevant Associate Dean. (Such rulings may include the length of the thesis and provision of specimens illustrating the thesis. See Section 14 of the Library Statute regarding the format of the thesis etc.)

7. The relevant Associate Dean shall determine the minimum period of registration and conditions of studentship for each candidate. In the ordinary case the candidate will be full-time and the minimum period of registration will be two

calendar years. In determining the minimum period of registration for other cases, the relevant Associate Dean shall take account of any employment or other regular activities in which the candidate is engaged and shall not approve registration unless satisfied that the nature and extent of these commitments are such as to justify an expectation that the candidate will present the thesis within a period of five years from registration. The minimum period of registration for such candidates will be more than two calendar years and not more than four calendar years.

*Note: A course of full-time advanced study and research means that a candidate shall throughout the calendar year regard the PhD work as a full-time occupation provided that*

- (a) *with the approval of the supervisor(s) and the administrative supervisor a candidate may engage in other academically relevant work for an average of not more than six hours per week during any calendar year, this time to include preparation, marking and any other ancillary activities necessarily involved in the work and*
- (b) *a candidate may take such statutory, recreational and other holidays, and undertake such domestic duties as are normally regarded as consistent with a full-time occupation.*

8. The supervisor shall submit to the administrative supervisor and the Registrar a copy of the half-yearly report. If progress is reported to be unsatisfactory the relevant Associate Dean may, subject to any submission or appeal a candidate may make, terminate the registration.

*Note: The Manager of the Graduate Students Office will act for the Registrar.*

9. The degree is awarded for a thesis which demonstrates the candidate's ability to carry out independent research, and which is a significant contribution to the knowledge or understanding of a field of study. The thesis shall be an integrated report and if it consists of several studies or cases their relationship to one another shall be demonstrated. The report may consist of either published or unpublished material or a combination of both.
10. When the candidate has completed the course, application may be made at any time to the Registrar for examination (subject to Section 11 hereof). The application shall be accompanied by
  - (a) three copies of the thesis in each of which is bound a short abstract and
  - (b) a certificate from the supervisor(s) that the candidate has pursued the course in accordance with the requirements of this statute.

*Note: The Manager of the Graduate Students Office will act for the Registrar.*

11. The thesis shall be presented within five years from the date of registration. This period may be extended by the relevant Associate Dean where good cause is shown provided however that any extension beyond seven years may be granted only in exceptional circumstances.
12. The thesis shall be examined by three examiners, one of whom shall be the candidate's supervisor, or one of the supervisors, being a full-time university teacher (and hereinafter called the 'internal examiner'). If there is more than one supervisor, the additional supervisor or supervisors may assist the internal examiner in examining the thesis. The other two examiners (hereinafter called

'external examiners') shall be nominated by the internal examiner in consultation with the administrative supervisor and appointed by the PhD Co-ordinator and shall be persons of standing in the field being examined and not normally on the staff of the Victoria University of Wellington. Usually one will be a member of staff of an overseas university or research institution.

13. A copy of the thesis shall be submitted to each examiner. Except where the PhD Co-ordinator, acting on the advice of the examiners, otherwise authorises, the internal examiner and at least one external examiner shall examine the candidate orally on the subject of the thesis and on the general field to which the subject belongs. Any supervisor who is assisting the internal examiner may also participate in the oral examination. Save in exceptional circumstances the oral examination shall not be conducted until the internal examiner has received a report on the thesis from any external examiner who will not be present at the oral examination. At the request of the internal examiner and one external examiner the candidate may be required to take a written examination. The three examiners shall, after consultation, make a report on the whole examination to the PhD Co-ordinator, which shall decide whether the degree shall be awarded. If a thesis is approved for the award of the degree one copy shall be returned to the candidate and two copies deposited in the University Library.

14. If the examiners consider that the thesis is not entirely suitable for acceptance for the degree they may recommend that it be returned to the candidate with permission to re-submit it within a specified period. A re-examination shall be by the same examiners, provided that, in exceptional circumstances which in the opinion of the PhD Co-ordinator render it necessary, one or more of the examiners may be replaced.

15. The relevant Associate Dean may on the application of the candidate or the supervisor(s) at any time before the submission of the thesis, or on the recommendation of the examiners after the submission of the thesis, approve the enrolment of the candidate in a subject for an appropriate Masters degree instead of the degree of Doctor of Philosophy, where the statute for such Masters degree provides that the degree may be taken by thesis and where the candidate does not already hold that degree in the same subject in this University. Where approval is granted, the candidate shall be deemed to have been registered for the Masters degree from the date of provisional registration for the degree of Doctor of Philosophy, and any thesis which has been already submitted for the degree of Doctor of Philosophy may be accepted in fulfillment of the requirements for the Masters degree.

16. The relevant Associate Dean may, on the application of any candidate for a Masters degree, at any time before the submission of a thesis for that degree, approve the enrolment of the candidate for the degree of Doctor of Philosophy, instead of the Masters degree. Where approval is granted, the candidate shall be deemed to have been registered for the degree of Doctor of Philosophy from the date of registration for the Masters degree.

For requirements, see Section 2(b) of the BA(Hons) Statute. See Section 15 of the Personal Courses of Study Statute and Section 5 of the BA(Hons) Statute for the substitution of papers from another subject.

**WISC 401 - Feminist Theory and Methodology**

This course will extend the study of gender analysis provided in earlier courses to a more advanced level. The variety of theoretical perspectives which have informed recent debates will be examined in their historical context. This will lead to a discussion of current

developments in feminist postmodernism and its influence on research methods and theories of representation, sexuality and identity. Other contested theoretical issues concerning the social construction of diverse identities will be discussed and the methodological implications for gender analysis will be explored.

**THE FOLLOWING COURSES ARE TAUGHT BY THE WELLINGTON POLYTECHNIC BUT ARE ALSO AVAILABLE FOR INCLUSION IN DEGREES OTHER THAN BDES. INTENDING STUDENTS SHOULD CHECK THE RELEVANT DEGREE SCHEDULE IN THE CALENDAR.**

As a general rule studio based courses (6 credits) will involve 6 hours of class contact and 6 hours of directed learning per week. For lecture based courses (6 credits) students will be involved in 4 hours lectures/tutorials and 8 hours directed study per week. Applicants are advised that although the following timetable is included for planning purposes, the Schools of Architecture and Design will allocate students to classes based on the best possible fit for all students. The intention is to satisfy the course preferences of as many students as possible.

Students requiring timetable details for the 200/300 level courses should contact the School of Design, Wellington Polytechnic.

Students whose institution of enrolment is VUW, who are enrolled in a course taught by the Wellington Polytechnic School of Design, are advised that there is a materials/copy charge attached to each course in the BDes schedule. (School of Design students already pay the same charge as part of their enrolment at Wellington Polytechnic.) An invoice will be mailed to you as soon as Wellington Polytechnic has been officially advised of your enrolment. Once paid, VUW students should request a Wellington Polytechnic student identity card from the main reception desk at Wellington Polytechnic. This card also serves as a library card for the Wellington Polytechnic library.

## Students' Association

**VUWSA Office Location:** Ground floor, Student Union Building.  
**Telephone** 473 8566  
**Facsimile** 499 7100  
**E-mail:** [vuwsa@vuw.ac.nz](mailto:vuwsa@vuw.ac.nz)

The Victoria University of Wellington Students' Association (VUWSA) exists to promote the interests and welfare of students both within the University and to the Government, and to provide services to its members. The Association has eight goals, which provide a focus for its activities:

1. To ensure and maintain adequate state income and welfare support for students.
2. To ensure the University provides equity and quality in assessment, teaching conditions and course access, supported by sufficient resources.
3. To promote equity for disadvantaged members within the University.

4. To control the Student Union facilities and operate quality, cost-effective, consumer services for members.
5. To provide and assist sporting, social and cultural activities for members, primarily through clubs.
6. To promote discussion and action as appropriate on issues concerning students as citizens.
7. To maximise the benefits to members by minimising fees or user charges through internal efficiency and non-member revenue.
8. To ensure that the structures and procedures of the Association result in effective and efficient communication and accountability.

The annual fee paid by students funds a wide range of activities and services, including the Student Union Complex (which includes the Recreation Centre), the weekly student newspaper *Salient* and Student Job Search. VUWSA also provides financial and administrative support for nearly seventy sports and cultural clubs affiliated to it, and organises social events including bars, live performers and the Orientation festival held at the beginning of each academic year. At the start of the year, all students also receive a Handbook/Diary produced and funded by VUWSA, which gives essential information on all aspects of student life at Victoria.

VUWSA is a student-controlled organisation, run by and for students. Day-to-day management is carried out by the Executive, an annually elected group of nine students, headed by a full-time President. VUWSA policy is set by General Meetings open to all students, which take place at least twice a year. General Meetings also elect VUWSA student delegates to represent student interests on a wide range of University committees.

VUWSA also co-ordinates the University's class representative structure, through which students are elected to liaise between the students in a course and the academic staff teaching that course over any minor problems. The Association employs an Education Co-ordinator to support its education work and to help students with more serious academic grievances.

VUWSA is affiliated to two national student organisations: the New Zealand University Students' Association (NZUSA), and the New Zealand University Sports Union (NZUSU). NZUSA represents students at a national level on education and student welfare issues. NZUSU provides support for student sports people and clubs, and organises inter-university sports competitions.

or [Tricia.Walbridge@vuw.ac.nz](mailto:Tricia.Walbridge@vuw.ac.nz)

**Postal address:** PO Box 600, Wellington.

The Victoria University of Wellington Foundation was established in 1990 as a registered charitable trust. The Foundation's purpose is to raise funds for projects which the University has identified as priorities, but which cannot be funded out of the University's budget. Donations are sought from corporate sponsors, from alumni and from private charitable trusts and foundations. The Foundation's first Campaign for Victoria University, launched in 1994, raised over \$6 million.

Assisting the Foundation are many senior business and community leaders, largely Victoria alumni, who have a concern for, and a commitment to, ensuring the wellbeing of the University through the provision of additional funding. Such funds lead to an enhancement of academic programmes, often enabling visiting academics to be brought in from overseas and to build on existing strengths within the University. Funds also enable services such as additional student accommodation and facilities for students with disabilities to be provided, as well as student scholarships. Finally, the Foundation has funded a number of capital works projects on campus, including contributing to the Hunter restoration project.

Sponsors, at the appropriate level, receive acknowledgement by the University, for example in the form of naming rights to physical entities within the University or to academic programmes and positions. The Executive Director is Tricia Walbridge.

## Student Allowances, Loans, Scholarships and Prizes

## Student Allowances

The Student Allowance Scheme provides a taxable allowance to students engaged in study. Applications for the allowance must be lodged with the Student Finance Office no later than 60 days after the commencement of the course i.e. first semester and full year courses by 2 May 1997, second semester courses by 12 September 1997.

To qualify for a student allowance, students must be enrolled in a full-time recognised programme. A full-time programme is defined as a combined course factor of 0.8 for a full year or 0.4 for a first or second semester programme. Each course has a course factor assigned to it and these are listed in the Guide to Enrolment.

The rates of student allowances for single students aged 16-24 are to be abated with parental income. There is no untargeted assistance for this group. Sixteen to twenty-four year olds who live away from home to attend their course of study are eligible for an allowance of \$118.74 net per week, where the parents' combined taxable income is \$536 per week (\$27,872 per year) or less. This allowance is gradually abated until the parents earn \$976.00 per week (\$50,752 per year).

Sixteen to twenty-four year olds living at home are eligible for an allowance of \$94.98 net per week, where the parents' combined taxable income is \$536 per week (\$27,872 per year) or less. This allowance is gradually abated until the parents earn \$880.00 per week (\$45,760 per year). Single students 25 years and over who live away from home are eligible for an allowance of \$142.50 net per week. Single students 25 years and over who live at home are eligible for an allowance of \$113.99 net per week. Students with earning partners with a combined gross income which exceeds \$12,027 and is less than \$31,720 are eligible for an allowance of \$51.47 net if living at home or \$76.69 net if living away from home.

A 'couple' allowance is available for couples without dependent children who are students and whose combined income is not more than \$12,027 for the calendar year. There are different rates depending on individual circumstances.

- one student, one dependent spouse \$237.48 net pw
- both eligible students (each) \$118.74 net pw
- both students, one eligible \$142.50 net pw

A 'student with dependants' allowance is available to students with dependent children. A single student must have a personal income of no more than \$135.13 per week before tax during their period of student allowances. If the student has a spouse, their combined income can be no more than \$12,027 per year before tax. There are different rates depending on individual circumstances.

- single parent (one child) \$204.10 net pw
- single parent (more than one child) \$222.66 net pw
- both students, one eligible,  
more than one child \$222.66 net pw
- both students, one eligible \$204.10 net pw
- both students, both eligible (each) \$126.17 net pw
- one student, one dependent spouse \$252.35 net pw

Students who live away from home may apply for an accommodation benefit. A set regional amount is based on rental/board/hostel costs.

Payment of allowances will be made by direct credit in 1997. Students must have a current trading bank account to which payment can be made.

*Note: This is an outline only of the Student Allowance Scheme - other conditions will apply to the student being eligible for a student allowance. These conditions can be found in the Student Allowance Information Booklet which can be obtained from the Student Finance Office.*

### **A Bursary (\$200) and B Bursary (\$100)**

'A' and 'B' Bursaries are payable to tertiary students aged 16 to 19 years only. Eligible students are those who are aged 16-19 years on the first day of their course and who

- either:* held a bursary in their last year of full-time study and passed more than half of a full-time programme in that year,
- or:* are first year students who have achieved an 'A' or 'B' pass in the Bursaries Examination.

## Student Loans

This scheme was designed to assist students to meet study expenses regardless of their family circumstances. Eligibility for a loan does not depend on age, ability to repay, credit-worthiness, parental or spouse's income. No security is required for a student loan.

However, to be eligible for a loan, a student must fulfil all of the following requirements. You must -

1. be a New Zealand citizen or Permanent Resident; and
2. be undertaking an approved course ie. full-time for more than 12 weeks or part-time full year.

In any year in which you fulfil the above requirements you may borrow:

1. all your compulsory fees; and
2. up to \$1000 for course costs; and
3. up to \$150 per week of your enrolment towards living expenses.

The third category is dependent on any student allowance you receive and as a result may fluctuate during the year if your allowance is reassessed.

In 1996 the interest rate on a student loan was 8.4% (6.2% real interest, 2.2% inflation adjustment). Interest (and this is simple not compound interest) is charged from the date of your first drawdown until the loan is repaid. Compulsory repayments begin when your taxable income exceeds \$14,330 p.a. (whether or not you are still a student) and the rate of repayment is 10 cents for every dollar you earn in excess of the threshold amount. If the amount of compulsory loan repayment due in any year is less than the interest due for that year then part or all of the real interest will be written off - provided that you are not drawing on a current loan entitlement ie. if you finish your studies and earn less than the threshold your compulsory loan repayment will be zero and that, being less than any interest payable, will enable you to have 6.2% of your interest written off.

You may make voluntary repayments at any time during the period of your loan. Such repayments reduce the interest charged on your account, as the loan balance is decreasing.

If you require further information on the Student Loan Scheme you should call in to see the Student Finance Office at the Registry where advice on loan entitlement, commitments involved in taking out a loan, the loan contract, interest, repayments and interest write-offs can be provided. The Ministry of Education has produced a handbook on the Scheme which is also available from the Student Finance Office.

- (f) if the number "1" is not marked opposite the name of one candidate.

#### **24 Counting of votes**

The result of every election of members to the Council shall be determined in accordance with the procedures for counting votes set out in Part 5 and the requirements of section 11(3).

### **Part 5 - Election Results**

#### **25 Counting first preferences**

- (1) The number of first preferences recorded for each candidate shall be counted.
- (2) The aggregate number of first preferences so recorded shall be divided by one more than the number of candidates required to be elected, and the quotient increased by one, disregarding any remainder, shall be the quota, and (except as provided in section 31), a candidate who does not obtain a number of votes equal to or greater than the quota shall not be elected.
- (3) A candidate who has, after the first preferences have been counted, a number of such preferences equal to or greater than the quota shall be declared elected.

#### **26 First preferences equal to or in excess of quota**

- (1) If the number of first preferences obtained by a candidate is equal to the quota, the whole of the voting papers on which a first preference is recorded for that candidate shall be set aside as finally dealt with.
- (2) If the number of first preferences obtained by a candidate is in excess of the quota, the proportion of those preferences in excess of the quota shall be transferred to the other candidates not yet declared elected, next in the order of the respective preferences of the electors, in the following manner -
  - (a) all the voting papers on which a first preference is recorded for the elected candidate shall be re-examined, and the number of second preferences, or, in the case provided for in section 33, third or next consecutive preferences, recorded for each unelected

candidate shall be counted; and

- (b) the surplus of the elected candidate shall be divided by the total number of votes obtained by the candidate on the counting of the first preferences, and the resulting fraction shall be the transfer value; and
- (c) the number of second or other preferences, ascertained in paragraph (a) to be recorded for each unelected candidate, shall be multiplied by the transfer value; and
- (d) the resulting number, disregarding any fractional remainder, shall be transferred to each unelected candidate, and added to the number of votes obtained by that candidate on the counting of the first preferences.

## 27 Surpluses

- (1) Where, on the counting of the first preferences or on a transfer, more than one candidate has a surplus, the largest surplus shall be dealt with first, and if at that stage more than one candidate has a surplus, the then largest surplus shall be dealt with, and so on, but if one candidate has obtained a surplus at a count or transfer previous to that at which another candidate obtains a surplus, the surplus of the former shall be dealt with first.
- (2) Where 2 or more surpluses are equal, the surplus of the candidate who was the highest on the poll at the count or transfer at which they last had an unequal number of votes shall be dealt with first, and, if they have had an equal number of votes at all preceding counts or transfers, the candidate to be dealt with first shall be decided by lot.

## 28 Increase in votes equal to or in excess of quota

- (1) If the number of votes obtained by a candidate is increased to a number which is equal to, or exceeds, the quota by a transfer, the candidate shall be declared elected.
- (2) In a case to which subsection (1) applies, notwithstanding the fact that the candidate may have reached the quota, the transfer shall be completed, and all the votes to which the candidate is entitled from the transfer shall be transferred, but no votes of any other candidate shall be transferred to that candidate.
- (3) If the number of votes obtained by a candidate is increased to a number which is equal to the quota by a transfer, the voting papers on which such votes are recorded shall be set aside as finally dealt with.
- (4) Where the number of votes obtained by a candidate is increased to a number which exceeds the quota by a transfer, that surplus shall be transferred to the candidates next in the order of the respective preferences of the voters, in the following manner -
  - (a) the voting papers on which are recorded the votes obtained by

the elected candidate after the last transfer shall be re-examined, and the number of third, or, in the case provided for in section 33, next consecutive preferences recorded for each unelected candidate counted; and

- (b) the surplus of the elected candidate shall be divided by the total number of voting papers mentioned in paragraph (a), and the resulting fraction shall be the transfer value; and
- (c) the number of third or other preferences, ascertained in accordance with paragraph (a) as having been recorded for each unelected candidate, shall be multiplied by the last-mentioned transfer value; and
- (d) the resulting number, disregarding any fractional remainder, shall be credited to each unelected candidate, and added to the number of votes previously obtained by that candidate.

## 29 Lowest polling candidate

- (1) Where, after the first preferences have been counted and all surpluses, if any, have been transferred, no candidate, or fewer than the number of candidates required to be elected, has or have obtained the quota, the candidate who, at that time, is lowest on the poll, shall be excluded, and all the votes obtained by that candidate shall be transferred to the candidates next in the order of the respective preferences of the electors, in the same manner as provided by section 26(2).
- (2)
  - (a) The votes obtained by an excluded candidate as first preferences shall be transferred first.
  - (b) The transfer value of each of those votes shall be "1".
- (3) The other votes of an excluded candidate shall then be dealt with in the order of the transfers in which, and at the transfer value at which, they were obtained.
- (4) Each of the transfers which takes place under subsections (2) or (3) shall be deemed for all purposes to be a separate transfer.

## 30 Transfer of votes

- (1) If the number of votes obtained by a candidate is increased to a number which is equal to, or exceeds, the quota by a transfer, the candidate shall be declared elected.
- (2) If subsection (1) applies, notwithstanding the fact that the candidate may have reached the quota, the transfer shall be completed, and all the votes to which the candidate is entitled from the transfer shall be transferred, but no other votes shall be transferred to that candidate.
- (3) If the number of votes obtained by a candidate is increased to a number of votes which is equal to, but does not exceed, the quota by a transfer, the voting papers on which those votes are recorded shall be set aside as finally dealt with.

- (4) If the number of votes obtained by a candidate is increased to a number which exceeds the quota by a transfer, the surplus shall be transferred to the candidates next in the order of the respective preferences of the electors in the same manner as provided by section 28(4), but that surplus shall not be dealt with until all the votes of the excluded candidate have been transferred.
- (5) If a surplus exists, it shall be dealt with before any other candidate is excluded.

### **31 Transfer of votes of excluded candidates**

The process of excluding the candidate who has polled the next lowest number of votes at the election and transferring to other candidates the votes of the excluded candidate shall be repeated until all the candidates, except the number required to be elected, have been excluded, and the non-excluded candidates who have not already been declared elected shall then be declared elected.

### **32 Candidates with equal numbers of votes**

If it becomes necessary to exclude a candidate, and 2 or more candidates having the same number of votes, are at the time, the lowest on the poll, then whichever of those candidates was recorded as having the lowest number of votes at the last count or transfer at which they had an unequal number of votes shall be excluded first, and if those candidates have had an equal number of votes at all preceding counts or transfers, the candidate to be excluded first shall be decided by lot.

### **33 Order of preferences**

In determining which candidate is next in the order of preference of an elector, any candidates who have been declared elected or who have been excluded shall not be considered, and the order of the preference shall be determined as if the names of those candidates had not been on the voting paper.

### **34 Exhausted voting papers**

- (1) If on a transfer it is found that on a voting paper there is no candidate opposite whose name a number is placed, other than a candidate who has already been either declared elected or excluded, the voting paper shall be set aside as exhausted.
- (2) Where the preferences of an elector have been indicated in any way other than solely by the use of numbers the voting paper shall be set aside as exhausted after the counting of -
  - (a) the first preference indicated by the voting paper, if "1" is the only number used; or
  - (b) the preferences indicated by a sequence of numbers beginning with "1".

- (3) If the same number is recorded opposite the name of more than one candidate or if a number within the sequence of preferences indicated is missing, the voting paper shall be set aside as exhausted immediately before preferences indicated by that number are considered.

### **35 Results of an election**

- (1) The Returning Officer shall notify the result of an election -
  - (a) promptly generally within the University; and
  - (b) to the Council at its first meeting after the election, and
  - (c) in the case of an election by the Court of Convocation, promptly by public advertisement in one or more newspapers.
- (2) The result of an election shall be provisional until the time for a recount has expired or any recount required under subsection (3) has been completed.
- (3) Any candidate or person who voted at an election may, by notice in writing delivered to the Registrar within 14 days from the closing of the poll for that election, require the Returning Officer to conduct a recount of the votes cast at the election.
- (4) On the completion of a recount under subsection (3) the Returning Officer shall notify the result of the recount in the same manner as the election result was notified under subsection (1).

**VICTORIA UNIVERSITY OF WELLINGTON COUNCIL ELECTION  
OF 3 MEMBERS BY THE COURT OF CONVOCATION  
PERMANENT ACADEMIC/GENERAL STAFF**

Conducted under the VUW Council Elections Statute 1990

**INSTRUCTIONS TO VOTERS**

There are 3 vacancies to be filled at this election.

*You must vote for at least one candidate.*

*You may vote for two or more candidates or for all candidates.*

*Exercise your right to vote by writing -*

The number "1" opposite the candidate you most want to be elected

The number "2" opposite the candidate of your second choice

The number "3" opposite the candidate of your third choice

The number "4" opposite the candidate of your fourth choice,

and so on until you are indifferent as between the candidates whom you have not marked.

Your vote will have maximum effect if you number, in order of your preference, all candidates except those you do not wish to be elected.

Lower preferences are taken into account only if your higher preferences have more votes than they need in order to be elected, or if your higher preferences are excluded through inadequate support. In no circumstances can a lower preference count against a higher preference.

The voting paper will be rejected as informal -

- (a) if the envelope in which it was received does not have your names, signature and postal address on the back;
- (b) if it has not been received by the Returning Officer by the time of the closing of the poll;
- (c) if it does not clearly indicate the candidate or candidates for whom you wish to vote;
- (d) if it contains any means by which you may be identified;
- (e) if the number "1" is marked opposite the name of more than one candidate;
- (f) if the number "1" is not marked opposite the name of one candidate.

The voting paper will not be rejected as informal but -

If you indicate your preferences other than solely by numbers, the voting paper will be set aside as exhausted after preference "1" or after the preferences indicated by a sequence of numbers beginning with "1".

If you use a number more than once or omit a number from a sequence of

preferences, the voting paper will be set aside as exhausted immediately before preferences indicated by that number are considered.

When you have marked your order of preference for the candidates for whom you wish to vote, fold the paper and place it in the envelope provided. Then write your name, signature and address on the dotted lines provided on the outside back of the envelope and return it to the Returning Officer, Victoria University of Wellington, not later than 5 p.m. on the .....day of.....19.....
